The Superintendent or designee shall collaborate with school administrators and teachers to develop and regularly review guidelines for the assignment of homework and the related responsibilities of students, staff, and parents/guardians.

Homework assignments shall be reasonable in length and appropriate to the grade level and course. The Board expects students, parents/guardians and staff to view that the number, frequency, and degree of difficulty of homework assignments will increase with the grade level and the maturity of students. Teachers shall assign homework only as a routine and important part of students' daily lives necessary to fulfill academic goals and reinforce current instruction.

Age-appropriate instruction may be given to help students allocate their time wisely, meet their deadlines, and develop good personal study habits.

At the beginning of the school year, teachers shall communicate homework expectations to students and their parents/guardians. Homework guidelines also shall be included in student and/or parent handbooks. These communications shall include the manner in which homework relates to achievement of academic standards and course content, the impact of homework assignments on students' grades, any school resources and programs that are available to provide homework support, and ways in which parents/guardians may appropriately assist their children.

Although it is the student's responsibility to do most homework assignments independently, ~~the Board expects teachers at all grade levels to use parents/guardians~~ may serve as a contributing resource. ~~When students and are encouraged to ensure that their child's homework assignments are~~
