

# DURAN & VENABLES

GENERAL ENGINEERING CONTRACTORS

Since 1979

June 2, 2017

**OVERAA**

**ATTN: TJ Gunter**

**RE: Scotts Valley Middle School Modernization  
CPE #001 – Contaminated Material**

We are pleased to submit a proposal for the subject project as follows:

\*\*\*\*\*

Off-haul contaminated soil

1. Our scope is based on the Draft DTSC Removal Action Work Plan
2. Excavate and stockpile soil for confirmation testing, if needed (does not include time to go back to the excavation and chase out any further contamination found, if any, during sidewall testing)
3. Off-haul and dispose 360 tons of contaminated soil at Class 2 facility (based on alternative daily cover)
4. Off-haul and dispose 90 tons of contaminated soil at Class 1 non-RCRA
5. Based on one move-in for each Increment

**Total: \$ 82,100**

Note that a Hazardous Materials License is required to perform this work and we are properly qualified and licensed.

\*\*\*\*\*

## **Our Proposal Excludes the Following:**

1. Testing of any kind
2. Payment of hazardous material generator fees (The BOE will invoice the Owner directly for this cost on all Hazardous loads)
3. Permits, fees and cost of furnishing bonds
4. Mitigation measures for the Mount Hermon June Beetle

\*\*\*\*\*

Sincerely,  
**Duran & Venables, Inc.**

Gregg Fisher
