SUICIDE PREVENTION

Note: The Government Claims Act (Government Code 810-996.6) provides that a district may be liable for injuries on school grounds or for an employee's failure to exercise supervisorial responsibility to use reasonable care to prevent foreseeable injuries resulting from school activities. Therefore, it is strongly recommended that, before adopting the following optional policy and administrative regulation, districts carefully review all the elements, consider their staff capabilities and resources, and delete or modify them as necessary to ensure that all aspects will be adequately enforced. Districts should also consult with legal counsel and the district's risk manager or insurance carrier, as appropriate. Education Code 215, as added by AB 2246 (Ch. 642, Statutes of 2016), mandates that the Governing Board of any district serving students in grades 7-12 adopt a policy on student suicide prevention, intervention, and postvention (i.e., intervention conducted after a suicide) with specified components. Those components are addressed in the following policy and the accompanying administrative regulation. Also see the California Department of Education's model policy required by Education Code 215.

The following policy and accompanying administrative regulation should be revised to reflect district practice. Pursuant to Education Code 215, the policy must be developed in consultation with school and community stakeholders, school-employed mental health professionals, and suicide prevention experts. It is recommended that districts also consult with legal counsel and the district's risk manager or insurance carrier, as appropriate.

The Governing Board recognizes that suicide is a **major leading** cause of death among youth and **should be taken seriously that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance.** ~~In order to~~ To attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop **preventive strategies and intervention procedures measures and strategies for suicide prevention, intervention, and postvention.**

In developing measures and strategies for use by the district, ~~The Superintendent or designee may involve~~ **consult with** school health professionals, school counselors, **school psychologists, school social workers,** administrators, other staff, parents/guardians, students, local health agencies, **and mental health** professionals, and community organizations. ~~in planning, implementing, and evaluating the district's strategies for suicide prevention and intervention.~~

See the accompanying administrative regulation for additional language fulfilling this mandate. In addition, Education Code 49604 encourages each district to provide suicide prevention training at least once to each middle, junior high, and high school counselor.
