SERVICE

Aspiration Goal

At the end of the summer:

- Students will not experience the “summer slide.”
- Students will demonstrate academic gains in Math/Literacy.
- Students will engage in high quality enrichment activities that will keep them safe, active and thriving during the summer.

ACHIEVE

Measurable Outcomes

Academic Outcomes:

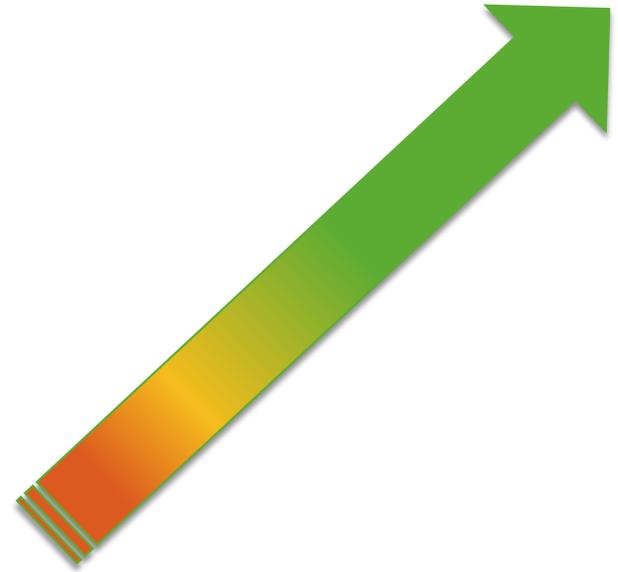

- Pre/Post Test of Gains

Demographics:

- Attendance
- Student Demographics

Quality Outcomes:

- Student & Family Survey

Elevate Math

- Silicon Valley Education Foundation has been partnering with school districts since 2008 to offer Elevate [Math] summer intervention programs to prepare students to successfully complete their next level Common Core math course.
- Elevate's goal is to redirect "nearly meeting standard" students back on a college and career bound pathway.
