

Make sure your event is covered!

Tenant User Liability Insurance

Program TULIP is designed to provide insurance for individuals (third parties) who will be holding their special events on a school or college campus.

More about TULIP

Typically the events are short-term in nature and may be up to four days including set up and tear down. Host Liquor Liability is provided in the TULIP policy. In addition, coverage for participating vendors may be purchased. Events such as Bingo, auctions, and charity dinners are representative of covered events.

Eligible events are rated by the number of attendees, type of activity and duration. Once the qualifying information has been entered through the web portal, the transaction will be secured by credit card.

The application for coverage is web based. Once all information has been entered a Certificate of Liability will be emailed to the facility hosting the event. The host school or college will be named as an additional insured.

Coverage is underwritten by One Beacon Insurance, a carrier admitted in the state of California to provide insurance. Bene-Marc maintains the web portal and offers customer service support.
