**RE: CDP APPLICATION NO. 5-18-0767 – CITY OF SANTA MONICA – CIVIC CENTER  
MULTIPURPOSE SPORTS FIELD PROJECT**

Dear Chair, Coastal Commissioners, and Coastal Commission Staff,

I am writing to you on behalf of the Santa Monica-Malibu Unified School District Board of Education to express support for CDP Application No. 5-18-0767, which would permit the City of Santa Monica to replace a surface parking lot in its Civic Center with a multi-purpose sports field and make accessory improvements.

The proposed regulation-size sports field would accommodate the needs of Santa Monica High School, which is located across the street from the Civic Center, along with the needs of the larger community. Due to its proximity, the proposed field will help alleviate the inadequacy of field space at our high school. There is far greater demand for field space on our high school campus than can serve the athletic needs of high school students on the cramped Santa Monica High School site. In addition to serving students, the field will be available for use by the larger community when not in school use. The School District and the City have a strong partnership that maximizes the joint use of school and park sites for the benefit of our community. This field will enhance what we are able to provide for our students and community.

Our School Board has expressed its support to the Santa Monica City Council as it considered its approval of this field and the restroom and other accompanying improvements. Both the school and athletics communities have been looking forward to this field for many years now and have appeared before the School District and the City to support it. The School Board believes that this multi-purpose field and the Early Childhood Lab School (ECLS) that was approved by the Coastal Commission last year are complementary and compatible. We are fortunate to be part of a community in which the needs of young children, school-age children, and adults are all widely supported throughout our community. In recognition of this widespread support, the City has wisely developed a plan that accommodates multiple compatible needs within the Civic Center.

**SANTA MONICA-MALIBU UNIFIED SCHOOL DISTRICT**
