This positive environment encourages productivity, and allows for the highest level of service for its clients.

Experience and Qualifications

STATE FUNDING ELIGIBILITY AND APPLICATION

California school districts and county offices of education have the potential to realize significant State funding contributions through individualized analysis of funding eligibility under the State's School Facility Program (SFP). SFC consulting staff is trained to analyze complex data sets in order to determine eligibility and access funding available through the Office of Public School Construction (OPSC) and other State agencies. SFC assists districts in navigating the multi-step requirements and coordinating with these agencies through the entire funding process.

FUNDING STRATEGY

By synthesizing our various areas of technical expertise, SFC consulting staff is equipped to develop complex and effective long and short term funding strategies that provide proven results in facilities funding. As a full-service consulting firm, SFC has the ability to take school district facilities projects from start to finish, applying methodology that garners the greatest funding gains while addressing specific and individual project needs which may evolve during the life of the project. SFC assists districts in providing a long term strategy which results in maximizing outside funding sources to expand the life of their local funding availability. These efforts ultimately afford our districts with the ability to provide additional and enhanced learning environments for students.

PROJECT CLOSEOUT AND AUDIT SUPPORT

As part of participation in the SFP, school districts and county offices of education are required by statute and regulation to conform to a number of certifications, as well as to ensure that funds received are expended appropriately. As part of the project closeout process SFC assists districts in compiling the documentation necessary to demonstrate conformance with expenditure requirements and the numerous certifications in order for districts to retain their awarded project funding amounts.

MASTER PLANNING

Districts utilize Master Plans to forecast their facility needs into the future. SFC produces comprehensive Master Plans for districts, which assess potential impacts associated with outside area developments such as new residential development, shifts in demographic trends, and fluctuating district boundaries. Unification studies, territory transfer and school site placement are interpreted as the physical needs of districts' facilities are also assessed and addressed through use of Master Plans.

DEVELOPER FEE STUDIES

School districts are authorized to collect impact fees on new residential and commercial/industrial development pursuant to California law. The preparation of developer fee studies in accordance with statute is required in order for districts to collect these fees. These studies utilize local district data, including new residential development, historical statistical information, and school construction costs to determine the dollar amount that can be justified for collection by the school district. SFC's Planning Division prepares Justification Studies (Level 1) and School Facility Needs Analysis Studies (Level 2 and 3) according to the State Allocation Board's (SAB) provisions.

DEVELOPMENT MITIGATION SERVICES

SFC assists districts with development mitigation services. Services include Student Generation Rate Studies, Mitigation Impact Reports and Fair Share Studies. SFC consulting staff is available to provide comments on the potential impact of planned developments including general plans, specific plans and environmental impact reports. SFC consultants provide Geographic Information System (GIS) mapping services to inform student generation rates on a Client-wide basis, by attendance area and for specific development projects. Should a client experience a fee challenge, staff are available to provide expert witness testimony and/or a professional review of developer fee justification reports or mitigation agreements.

Experience and Qualifications

Alexander R. Murdoch

School Facility Consultants, President/Partner

PROFESSIONAL QUALIFICATIONS

Alex Murdoch has worked in the school facility industry for over twenty-five years providing consulting services for clients in all areas of school facility planning and funding. As President and Partner of School Facility Consultants, Alex applies sophisticated methodologies to the facility funding and planning process resulting in the successful, timely delivery of innovative and complex projects.

As an industry leader, Alex is credited with a number of significant accomplishments including innovative planning that resulted in funding for a school district's reuse of commercial property for educational and economic revitalization purposes, being first to secure a lease/lease-back funding guarantee from the Office of Public School Construction for a school district and being first to receive special, legislated funding for a school district's multi-story replacement project.

Alex applies a nuanced approach to the political intricacies of the allocation of school facilities funding. He works to increase the Federal commitment to California school facilities. Alex specializes in identifying statewide policy trends, which are beneficial to the firm's clients. As an appointed member of statewide committees, Office of Public School Construction's Ad Hoc Committee in 2007 and the Coalition for Adequate School Housing's Grant Adequacy Committee in 1999, Alex has been instrumental in contributing to changes in regulations and legislation that benefit schools in California today.

Alex has crafted dozens of successful appeals to the State Allocation Board, brought numerous special items before the State Allocation Board and has crafted successful statewide bond provisions. His expert understanding of California Ed code and School Facility Program regulations has resulted in millions of dollars of funding for California school districts.
