## Board Policy

### Grades/Evaluation of Student Achievement

BP 5121

#### Students

Grades are an impartial, consistent reflection of the quality of the student's work and his/her mastery of course content standards.

The teacher of each course shall determine the student's grade. The grade assigned by the teacher shall not be changed by the Board or the Superintendent except as provided by law, Board policy and administrative regulation. (Education Code 49066)

(cf. 5125.3 - Challenging Student Records)

Grades shall be based primarily on the degree of student mastery of course content standards.

Student mastery can be demonstrated by class work, portfolios, labs, papers, oral and written performances, projects, teacher observation, and quizzes and tests.

Student learning is supported by daily attendance and homework completion, class participation, and academic honesty. Homework is defined in BP and AR 6154.

The Superintendent or designee shall establish and regularly evaluate a uniform grading system.

Within the first week of the term, teachers shall communicate with students and parents/guardians course standards, grading criteria, and late work policies.

Students and parents/guardians shall receive updates that represent an accurate and timely evaluation of the students' grades.

When reporting student progress/grades to students and parents/guardians, teachers may add narrative descriptions, observational notes and/or samples of classroom work.

Teachers are encouraged to provide opportunities for students, parents and tutors to review test concepts outside of school.

(cf 6011 – Academic Standards)

(cf 6020 – Parent Involvement)

(cf 5020 – Parent Rights and Responsibilities)

The Superintendent or designee shall recommend to the Board the methodology to be used in calculating students' grade point averages.

The effectiveness of the board policy and administrative regulations will be reviewed annually, and site plans will be adjusted accordingly.
