

**Palos Verdes Peninsula Unified School District**

Resolution No. 2 – 2019/20

Support of Southern California Regional Occupational Center  
2019-20 Career Technical Education Incentive Grant

October 10, 2019

SoCal ROC is considered the model for providing Career Technical Education (CTE) in California. We are a Joint Powers Authority that has been providing industry training for the past 52 years to high school and adult students throughout the greater South Bay. Partly due to a miscommunication, SoCal ROC was not included in the 2018-2019 Career Technical Education Incentive Grant (CTEIG) award. The information for submitting the application was sent to an email address that is no longer valid. This resolution declares our support for SoCal ROC being selected to receive CTEIG funding for the 2020-2021 fiscal year.

Whereas SoCal ROC has provided high quality CTE for 52 years to high school and adult students,

Whereas SoCal ROC provides career exploration and guidance,

Whereas SoCal ROC develops industry partnerships for externships and advisement,

Whereas SoCal ROC provides training aligned to industry standards,

Whereas SoCal ROC demonstrates an effective organizational design,

Whereas SoCal ROC adapts courses according to industry and economic demands,

Whereas SoCal ROC hires highly qualified staff members and places a high priority on staff development,

Whereas SoCal ROC is actively involved with community stakeholders,

Whereas SoCal ROC continuously evaluates staff, systems, and courses to stay industry current,

Whereas SoCal ROC promotes CTE in every facet of its operation,

Whereas SoCal ROC provides CTE classes for more than 100 Palos Verdes Peninsula Unified School District students annually,

Now therefore, be it resolved that the undersigned gives full support for SoCal ROC being selected to receive CTEIG funding for 2020-21.
