

# BoardDocs®

---

A DILIGENT BRAND

## **BoardDocs Pro and Pro Plus**

### **Executive Overview**

BoardDocs® Pro is a state-of-the-art, cloud-based Board Management Service developed specifically for public governing bodies. BoardDocs provides a means of immediately publishing and revising agenda items, supporting documents, and policies and procedures via the Internet. Staff Members can quickly and easily create, approve and track agenda items and other correspondence. BoardDocs services offer governing bodies a simple way to eliminate paper-based and less advanced electronic processes while maintaining a searchable, legal repository for all documents.

BoardDocs improves governance by making documents readily available to governing bodies, designated staff and the public in a professional, easy-to-access format. Staff maintains total control over who sees what information - and when.

### **Benefits Summary**

In addition to dramatic improvements in governance processes and board effectiveness, our subscribers consistently report substantial annual cost savings, time-of-staff savings of up to 75%, increased transparency with stakeholders and multiple environmental benefits.

## **BoardDocs Pro: Features and Benefits**

### **Meeting Control Panel**

BoardDocs Pro provides comprehensive tools for meeting management. The core of our meeting management is the Meeting Control Panel (MCP). Using the MCP, designated meeting moderators have the ability to move agenda items in and out of consent, re-order the agenda, record motions, record voting, enable online voting and take notes for inclusion in the minutes.

### **“Follow Me” Technology**

With BoardDocs Pro “Follow Me” technology, it’s easy to be sure that everyone is on the same page. As the meeting moderator moves through the meeting, the governing body members can follow along. They simply click on the blinking agenda item at any time and are immediately taken to the current agenda item.

### **Voting**

BoardDocs Pro is easily customizable and can collect actions in two ways. Organizations can designate a moderator to record the action details during or after the meeting, or the built-in online voting system can be used.

BoardDocs Pro also supports consent agenda items. Using the consent feature, the board can vote on several agenda items at once and BoardDocs Pro populates the resulting vote in each agenda item. Items can be removed from or added to the consent agenda in real time, during the meeting, with a simple click by the meeting moderator.

### **ScoreBoard**

No matter how action information is recorded, BoardDocs Pro can share the results with the public in real time. ScoreBoard is an automated screen that follows the progress of the meeting and keeps the public up-to-date with the actions of the board. It is typically displayed on large screens in the board room during the meeting.

### **Minutes**

BoardDocs Pro uses the action information stored in each agenda item to generate draft minutes of the meetings. Once the minutes are generated, the document publisher can format and edit using the BoardDocs Pro integrated editor.

## Annotations

BoardDocs Pro provides support for governing body members to enter private notes on any native BoardDocs Pro document. The notes are stored separately from the organization's data in a private notebook on BoardDocs' servers. While most solutions store annotations together with the organization's data, BoardDocs Pro's private annotation solution is unique. By maintaining the information in a separate database, the organization is not required to provide the annotations in response to a FOIA request.

## Meeting Video

Meeting video allows stakeholders to go well beyond documents and actually view what happened during each agenda item in a meeting. This feature simplifies the task of associating and managing meeting video by providing easy-to-use tools that automate the process involved with delivering video over the Web. Users can easily associate their video with each meeting and tag individual agenda items to any part of the video, all while displaying them through the organization's existing BoardDocs interface.

## Integrated Solution

BoardDocs is the only solution to provide online meetings, library, goal tracking, events, video and policy solutions in one product.

## Search and MetaSearch

BoardDocs provides the ability to perform searches against the full text of any document in the system – including attachments. The document publisher determines what documents or parts of documents users can access. Through MetaSearch, BoardDocs also provides the capability to perform searches of public agenda items and policies from similar organizations using BoardDocs services. By using this exclusive feature, staff and governing bodies can research policies and procurement on a national basis, incorporate findings into their own efforts, develop best practices, and ultimately save a great deal of time and money.

## Technical Support

BoardDocs provides live, 7 x 24, US-based, no-charge technical support for all document publishers and authenticated users for the life of the agreement.

## **BoardDocs Plus**

### *Need a Solution for Multiple Governing Bodies?*

BoardDocs Plus is a new service enhancement that enables organizations with multiple public governing bodies to provide a separate, distinct and comprehensive suite of BoardDocs services to each group via one subscription.

BoardDocs Pro can support unlimited types of meetings for different committees; however, by adding Plus, each governing body can have separate confidential meetings, separate document managers and separate administrative access. With BoardDocs Plus, BoardDocs services can provide agenda item-level security so only authenticated users in each group can access meetings, agenda items or even parts of an agenda item.

## Feature Summary

The BoardDocs Pro service includes the following features:

- BoardDocs Board Management Solution
- BoardDocs Policy Services Development and Publication Solution
- BoardDocs Library with Support for Events, News, Board Goals and Board Member Pages
