2. **English Only**: Students continue with a traditional program in English.
3. **Dual Immersion/Newcomer**: Students from a Dual Immersion Program continue to take some content classes (Spanish Language Arts, Social Studies/Science) in Spanish. Newcomer students have access to content classes in Spanish with the DI students (while continuing to learn English). Students who demonstrate Literacy Skills in Spanish can also join this Strand.

# And beyond 9-12

---

We are beginning to engage with the Elsie Allen High School Leadership team to create potential Curricular Gateways to support: International Business, Ethnic Studies, World Arts, Entertainment and Media through CTE funding that will support the Dual Immersion Model.

# Impacts on Staffing

---

- Site leadership options (one or two principals, VPs)
- Allocations for program need (dual immersion model)
  - Certification needs (BCLAD)
  - Contractual obligations for student/teacher ratio
- Reducing duplicated positions (ex. One office manager versus two)
- Charter requirements for credentialing

# Possible Configurations of Schools

The work of the merger team has shown a significant commitment to the blending of the two schools. The Board will need to provide direction to two options:

- Combine the two schools under a K-8 charter which would necessitate the Board of Education to close Lawrence Cook Middle School. Additionally, a charter renewal would need to take place to take into consideration, priority for neighborhood students and existing Lawrence Cook Middle School Programs.
- The incoming 7th grade students at CCLA is projected at 32 students. Therefore keeping the two schools as is but utilize the opportunity for cohabitation of the facilities, create learning opportunities within the two schools and keep the funding sources separate.
