next sequential leveled course (i.e. a student meeting Math 1P in middle school may go directly into Math 2P).

Alternative Credits Toward Graduation

Industry Concentration Certificate

An Industry Concentration Certificate is a path to a college and career future that integrates a-g courses, college courses, work based learning, and linked learning specialty areas. Completion of an Industry Concentration leads to meeting most of the a-g requirements, graduation from high school, and earns an Industry Concentration Certification in a key industry sector.

Students begin the Industry Concentration in grades 11 or 12. Students completing an Industry Concentration Certification will still meet the 220 credits graduation requirement; however, integrated with an industry sector concentration that may include CTE/VAPA courses. Students may participate in dual enrollment at a local college or university with approved agreements, mentorships, pre-internship, and pre-approved work based learning. Santa Rosa City Schools, 11th and 12th grade students may be identified to participate in an Industry Concentration Certificate at their school.

Alternative Education

If an administrator so recommends, an alternate 180 credit course of study is available for students at Ridgway Continuation High School, or the Individualized Education Program Team can determine that an alternate course of study may be available.
