RE: Sunshine for MVTA

For contract negotiations for the 2021-2022 school year, the Mill Valley Teachers Association will present a proposal to the Mill Valley School District for a new collective bargaining agreement that will address including, but not limited to, the following articles:

Article 2 - Recognition

- In order to accurately represent our members, all MVTA members must be listed in the recognition article of the certificated bargaining agreement.

Article 21 - Compensation -

- Our students deserve the best, therefore we will seek a competitive salary increase and health and welfare benefits for our unit members to attract and retain the best educators for our students.
