VERIZON WIRELESS AUTHORIZED CUSTOMER AGREEMENT

This agreement is dated _____ (“Effective Date”) between Cellco Partnership d/b/a Verizon Wireless and its Related Entities (“Verizon Wireless”) and _____, having its principal place of business at _____ (“Authorized Customer”), a qualifying California School as described in the Special Provisions of Amendment 2 to Los Angeles Unified School District (“LAUSD”) Contract No. 4400007482 – Amendment 2, effective May 26, 2020.

This Authorized Customer Agreement shall be governed by the terms and conditions, incorporated herein by reference, of Contract No. 4400007482 – Amendment 2.

Authorized Customer is a public kindergarten through 12th grade school within the State of California and desires to purchase the following “ANYTIME-ANYWHERE LEARNING INITIATIVE DATA PLAN and EQUIPMENT OFFERING(S)” (“Data Plan”) from Verizon Wireless.

NOTE: Coverage includes the Verizon Wireless 4G network. Data usage on this rate plan is not subject to speed reductions (“throttling”) within a given billing cycle. However, in the event of network congestion data usage on a line may result in slightly slower download speeds relative to another user. To ensure users are able to maximize their high-speed data use for business/educational applications, video applications will stream at 480p. Only 4G LTE Tablets and Jetpacks approved for use on Verizon Wireless’ network can be activated on this plan. This plan is available until the Coronavirus (COVID-19) Pandemic National Emergency has been lifted. Customer Provided Equipment is limited to devices purchased directly through an Original Equipment Manufacturer or from Verizon Wireless as the cost designated in the Authorized Customer Agreement.

Subscribers that are placed into this pool will be limited to utilizing the Verizon Wireless Network for transport to and from their FES connections to the Verizon Wireless Network. Static IP addresses will be available on remote access, Mobile Broadband and Unlimited metered data plans or features only. Fees may not apply in certain VPN environments. Reserved Static IP addresses will be shown at the account level and can be viewed from the billing system. Feature activations will be stored in the “data warehouse” database along with the Static IP Address for reporting. A Static IP address is associated with the device’s MDN (Mobile Dialing Number).
