1.2 Emergency Action Plan

District Responsibility

The Superintendent (or Designee) has the authority to declare a school site emergency during school hours. Under the authority of the Superintendent, all students<sup>1</sup> will be required to remain at school, or an alternate school or safe site during school hours and under the direction and supervision of district personnel or school site administration.

School Site Administration

In an emergency during school hours, students shall be under the supervision of school site certificated and administrative personnel:

- 1. Until regular dismissal time, and then released only if safe unless they opt to depart under their own authority

<sup>1</sup> Except adult students

2. Until released to an adult authorized by the parent or guardian whose name appears at school-site or district records prior to dismissal time.<sup>2</sup>
3. In the event that the total school is evacuated, students are released at or to a temporary staging area supervised by certificated staff.<sup>3</sup>

### **Student Responsibility to and from School<sup>4</sup>**

1. Students *on their way to school* will be brought to school if bussed and only when safe, or they should proceed to school by other means.
2. If students are *on their way home from school*, they are to continue home.

### **General Knowledge**

1. Mass panic can be one of the greatest dangers to oneself and others. Staff must remember that in times of stress, students will look for adult leadership and also to those who are normally in a position of authority. Staff must remain calm, size up the situation, and take action based on known facts and information contained in this manual.
2. Each teacher must keep a roster or other listing of the pupils in his/her charge and available at all times in order to take roll during an emergency and must take the roll book or student roster with them in the event of an evacuation.
3. All school staff members must be thoroughly familiar with the contents of this plan. This emergency plan outlines action which school personnel will be called upon to execute in an emergency situation in order to minimize confusion, injury, and loss of life in a major disaster.
4. If possible, all schools will be notified of any emergency through the main office switchboard, two-way radios, or cellular telephones.

---

<sup>2</sup> Except adult students

<sup>3</sup> unless adult students opt to depart under their own authority

<sup>4</sup> BAS has no authority for adult students on their way to/from school

5. In the absence of orders from his/her supervisor, the school Principal is authorized and directed to implement one or more of these plans as described herein, or to take such action as may in his/her judgment be necessary to save lives or mitigate the effects of disaster. As soon as possible thereafter, he/she shall notify the Superintendent of the particular action taken at the school site.
6. Each member of the Board of Trustees in Berkeley Unified School District shall contact the District Control Center as soon as possible.

☛ Note: All reference to *school, schools or campus* apply to Berkeley Adult School.

### Earthquake Emergency Procedures for Administrative Team

Principal or Designee will direct the Head Custodian to turn off power, water, or gas if necessary, or if directed to do so by the District Office.

The Principal or Designee will prepare teachers to make visual inspections of outdoor area 60 seconds after shaking stops. Teachers will then lead students to designated outdoor locations if safe to do so. If conditions dictate, teachers may choose to keep students in their classrooms. Students should not be sent anywhere without staff.

Teachers may have to stay with students for extended periods of time.

Principal or Designee will assess damage/injuries as soon as possible and report the following information to the BUSD Incident Command by radio:

- Name of the School
- Time of disaster and time of call
- Nature of injury or structural damage (fires and serious injury take priority)

- District Maintenance/inspection teams will be dispatched
- Principal or designee will direct teachers to move students from emergency location only after receiving such direction from the District Office. The school retains custody of students until they are dismissed in the manner and at the time specified by the District Office.
- Students may be released only to parents or guardians except under the following conditions: -- Parent or guardian has given written permission to release the student to another adult.
- If necessary, in consultation with the Superintendent or designee, the Principal or designee may determine to move the students to an alternate safe location.
- Students will be released to authorized adults only. Address, destination, phone number, and signature of the authorized adult to whom the student is being released must be obtained. All efforts and contacts must be documented.

### Procedures for Evacuating Building-Drills & Actual Evacuation

Building evacuation following an earthquake is imperative due to the possibility of secondary hazards such as explosions and fires. Students should exit in a quick and orderly manner. This evacuation procedure can be reinforced through periodic fire drills.

### Earthquake Drill

The school site shall conduct earthquake drills once a year. Because unexpected structural and property damage may lead to confusion and anxiety, it is important for students and staff to be prepared for what to expect and how to navigate safely. To emphasize that evacuation takes place only after ground shaking ceases, building evacuation should be practiced as an extension of the classroom DROP AND COVER drill (*see Section 1.3, Action: DROP.*)

During an earthquake drill, the Principal or designee shall:

- Give the command to evacuate buildings
- Use a bullhorn or other verbal means to give the evacuation command
- Use the post-earthquake building evacuation route
- Be aware of potential hazards along building evacuation

### Plan for the Unexpected

Procedures in the event that any of the following unexpected emergencies:

UNEXPECTED EMERGENCY	PROCEDURES
Power Failure	The Principal or designee will contact the District's Director of Planning for direction.
Door Jam	Head Custodian will take all necessary steps to: open, force, or break door open, in the given.
Alternate Exit Route	The Principal or designee shall direct an exit route in the event that the planned route is no longer feasible.
Aftershocks	Aftershocks shall be handled the same as TAKE COVER, or "Duck and Cover" and for aftershocks drill.
Injured Students Who Cannot Be Moved	The team trained in First Aid procedures will be called to assist such injured persons until paramedics or other professional help arrives.
Release of Staff	The Principal or designee may release staff to return to their homes as students are dismissed and are off school grounds. Staff release may be gradual, depending on student release.

	information or assignments as early as possible, upon approval Principal or designee.
--	---------------------------------------------------------------------------------------

- ☛ Note: While the safety of our students is of paramount concern, the Principal and Administrative Staff shall be sensitive to the individual needs of staff and their families during and emergency. The Principal and Administrative Staff will assign staff to areas of greater need. They will release staff according to greater need. Staff will be released according to the age of their children and according to the extent of serious damage in the area where they live.

### Classroom Earthquake Procedures

During an earthquake drill or at the first sign of ground shaking, students, teachers, and all other staff need to react immediately and appropriately.

#### *During an earthquake*

- Staff and students are to move away from buildings, trees and exposed wires. DO NOT RUN!

#### On School Bus

If possible, the bus driver will pull to the side of the road away from any buildings, and issue command "DROP" when students are on the bus. On a mountain road, the side of the road may not be the safest place; the bus driver then should quickly consider the terrain before stopping the bus.

- Set brakes
- Turn off ignition
- Wait until the earthquake is over
- Contact the BUSD Incident Command for further instructions.

#### Walking to and from School

- The safest place is in the open.
- Move away from buildings, trees, and exposed wires.

### **1.5.3 Electrical/Gas Power Outage (Accidental, Rolling Blackout, or Other)**

In the event of an electrical power outage, determine if it is a rolling blackout caused by PG&E. or by other reasons. Rolling blackouts may occur whenever there is insufficient electrical power available to service all of the user needs. Electrical suppliers may selectively shutdown various locations on their power grid.

#### Rolling Blackout Not Caused by Pacific Gas & Electric (PG&E)

The Principal, Site Supervisor, or other Designee will call the PG&E 24-hour Customer Call Center first at 1.800.743.5002 or 1.800.743.5000. This will allow the caller to speak to a representative in order to have the emergency recorded.

#### PG&E-Caused Blackout

The Principal, Site Supervisor or other designee will call the PG&E 24 Hour Customer Call Center at 1.800.743.5002 or 1.800.743.5000; after hours at 1.800.743.5000.

One of the following numbers will be available to assist in identifying the school's location:

SITE	PG&E CAUSED BLACKOUT	ACCOUNT	ELECTRIC METER #1	GAS METER #1
Berkeley Adult School	1701 San Pablo Avenue, Berkeley	7631655810 5448369759 5573369751	1008819418	61270515 4556993

Monday through Friday, during normal business hours, the Principal, Site Supervisor or other Designee will call:

- Wanda Braddy, PGE Major Account Representative, at 1.925.459.8093.
- If Wanda Braddy is not available, press "0" for assistance.

#### What to Do at Your Site

##### *Part of the School Site is affected*

The Principal or Designee shall relocate students and staff to another area of the campus, if necessary; and feasible, where the electricity is working.

The Principal or Designee shall contact the District's Office of Planning and Public Information Officer, Charles Burrell, at 510.644.6320 and advise him of the power outage.

##### *The Entire School Site is affected*

The Principal or designee shall contact Facilities Planning, Timothy White, 510.644.4594, and advise him of the power outage. Students shall be relocated to another part of the campus only if necessary and/or feasible.

The Principal/designee shall have the responsibility to give the command *Action GO HOME* only under the direction and authority of the Superintendent or designee.

*Notification to Parents and Guardians*

In the event that the Principal or designee gives the command *Action GO HOME*, the District Office will alert or direct the school site to notify the following media:

- City Emergency Radio Station 1610 AM: 510.981.3473
- City Television Station Channel 28 & 33: 510.848.2288

*"Phase Three" Alert Declared by PG&E*

SITE	ELECTRICAL BLOCK LOCATION
Berkeley Adult School	basement

When a "Phase Three" alert is declared by PG&E, it is requesting that the consumer (your school in this case) go into a "conservative mode" in order to try and avert a "rolling blackout."

In order to conserve, the following should be considered:

- Turn off all unnecessary electrical appliances and devices. These may include (but are limited to): radios, televisions, clocks, desk lamps, coffee makers, etc.
- Turn off all space heaters.
- Turn off all unnecessary or superfluous lights. Turn off lights in empty offices or classrooms.
- Turn off computer monitors when not in use for any length of time. Turn *energy saver* mode on computers (usually found in the System Folder). This mode puts the computer to sleep when not in use for a period of time.
- Use Gmail instead of memos and faxes.
- Avoid unessential electrical usage during peak hours (7:00 a.m. and 4:00 p.m.).

*Staff Responsibility*

The warning sign for the electrical blackout is the blackout itself. Safety team members will go from room to room to determine the extent of the blackout.

When students are present:

- The staff must remain in their classroom in the event of an electrical blackout.
- Keep all students in class unless directed otherwise.
- Non-classroom Safety Team Members or others with open preps will be assigned to various locations on site and keep staff posted for further instructions.
- All Safety Team members will communicate via **District two-way radios** using the **District Emergency Channel 5**, which is linked directly with the District Office's base station.
- Students will look to staff for guidance and direction. It is important that all staff model strong leadership and calmness during an energy crisis.
- Classrooms with the poorest lighting shall be offered the option of using a lantern or relocating to another part of the site. All classrooms/administrative offices shall be assigned a flashlight for faculty restroom use, and to be stored in the classroom Emergency First Aid backpack.
- Alternate teaching locations for classrooms with poorest natural light conditions:<sup>6</sup>

SITE	ROOM	ALTERNATE ROOM	TEACHERS
Berkeley Adult School	20	208	Suzy Quenville-Orpin, Scott Sachs Leslie Lang, Chris Colewell
	21	216	Dan Reamon, Rick Segura, Joyce Barison

- Staff Supervision During Rolling Blackouts

---

<sup>6</sup> If a power outage occurs during evening hours, classes may be cancelled and students dismissed. If power is not fully restored within thirty minutes during daylight hours, classes may be cancelled due to safety concerns pertaining to electrical communications such as telephones and/or intercom system.

To support students and staff during a rolling blackout, campus supervisors shall be visible and roam the campus during the blackout in the event immediate assistance is needed by staff. Classroom telephones should not be affected and staff may continue to call the office for assistance in an emergency or crisis situation aside from the rolling blackout itself. Supervision areas are as follows:

CAMPUS SUPERVISION AREA	PERSON RESPONSIBLE
Berkeley Adult School	Tom Reid LaRanda Marr Teacher-in-Charge School Safety Officer

#### 1.5.4. Water Shut-Off

If a water shut-off affects the entire school site, the Principal or Designee shall contact the District Office and advise them of the water shutoff.

The Principal or Designee shall have the responsibility to give the command *Action GO HOME* only under the direction and authority of the Superintendent or Designee. Invoking this command will depend on the time of day and the extent of time that water is expected to remain off.

#### 1.5.5 Gas or Chemical Leak

Warning of a chemical accident is usually received from the fire, police department, or from the Office of Disaster Preparedness when there is a threat to the safety of a school. Such accidents may include overturned tankers, broken fuel lines and those related to the industrial use of chemicals. When the reported accident occurs, the following procedures will be used:

Principal or Designee

- Determine if the students and staff should evacuate to a location preferably uphill and upwind from the accident in consultation with the Superintendent or designee.
- Communicate by verbal means to determine whether immediate evacuation to a location uphill and downwind from the accident is necessary to avoid any possible ignition by spark. Be aware that while communicating verbally, staff could easily be placed in danger by coming into contact with the chemical fumes.
- Contact the First Aid Field Supervisor to oversee and take over all First Aid activities and activate first aid station.
- Notify the Superintendent's Office or designee.
- Notify the Superintendent's office of the need to evacuate school grounds and proceed in consultation with the District to initiate Action "MAY GO

#### Staff Responsibilities

- When students are evacuated from class to another part of the campus, take firm control for an orderly evacuation. Take roll at assembly area.
- Keep students away from any emergency vehicles that are responding to the spill.
- Do not return to the school site, or particular buildings, until the fire department or other city officials have declared the school site safe to return.

Administration and other school personnel and school Principal should remain in Incident Command and the VP should remain in Operations, with Fire and/or Police, until the situation is resolved and the campus is transitioned back to school officials.

#### **1.5.6. Flood**

The Principal should remain in Incident Command and the VP should remain in Operations, with Fire and/or Police, until the situation is resolved and the campus is transitioned back to school officials.

### 1.5.8 Explosion or Sudden Flash of Light

In case of a real explosion, the first sign will be an extremely intense light. A blast wave occurs almost immediately. The following are procedures for IMMEDIATE implementation in the event of a real explosion, sudden flash of light, or surprise attack.

EMERGENCY ACTION	PROCEDURES

If the explosion is within the school buildings, the fire alarm shall be sounded and all persons are to exit the building and evacuate according to the Emergency Exits chart in the classroom or building.

The school personnel and school community will be under the direction of the fire department once it arrives on school site. The Principal should remain in Incident Command and the VP should remain in Operations, with Fire and/or Police, until the situation is resolved and the campus is transitioned back to school officials.

### 1.5.9 Triage During a Crisis or Disaster

*Triage* means the "sorting of and allocation of treatment to patients and especially battle and disaster victims according to a system of priorities designed to maximize the number of survivors" (Webster's Ninth New Collegiate Dictionary).

In addition to medical needs, this process also includes screening the emotional risk to victims in order to provide immediate intervention to those most affected by the crisis. This process includes students, staff, and the total school community within the school.

Individual consultation should be available to all individuals who are directly exposed to and affected by the crisis. This includes students, staff, and others within the school community such as volunteers, parents.

Individuals whose needs fall beyond the scope of the school-site level of the MST will be referred to outside community agencies for additional services.

Examples of individuals who appear to be affected more severely than others include (not in order or priority):

- Students directly involved in the incident
- Students with close friends/family directly involved in the incident

- Close friends of a suicide victim
- Recent victim of a previous trauma who becomes highly affected by the current trauma, even if not directly involved

Medical triage will be covered by the first aid team if the Fire Department is not involved.

#### **1.5.10. Terrorist Attack**

In the event of a terrorist attack, the Berkeley Unified School District will take appropriate measures in line with the local Standardized Emergency Management System (SEMS) response. The District will be in contact with local police department. Specific actions are listed below in the event of national and/or regional/local attack.

Per Government Code Section 3100 et seq. during a disaster, public employees become “Disaster Service Workers.” As Disaster Service Workers, we will be called upon to serve at our work sites unless otherwise directed by local authorities. The following guidelines should be followed by all staff.

- If a crisis occurs during an employee’s regular work schedule, the employee is to remain at his/her respective work site until officially released by the supervisor. Principals/designees will take into consideration the familial needs of employees and release staff accordingly.
- If a crisis occurs when an employee is on his/her way home from work and children have been dismissed, he/she should continue on and tune in to television and/or radio stations and be available to be reached by telephone for further direction.
- If a crisis occurs when an employee is on his/her way home from work and children have NOT been dismissed, the employee should return to his/her work site immediately, conditions permitting.

- If a crisis occurs when an employee is on his/her way to work, he/she should continue on if roads are passable. If he/she is unable to make it to work due to impassable roads and/or hazardous conditions, he/she should contact his/her work site and inform them of his/her location.
- If a crisis occurs at a time that is NOT during an employee's regular work schedule, the employee is to report to work at his/her regular place and time (business as usual) unless notified by telephone tree, television, or radio announcement to do otherwise.

#### **1.6.4. Response to Crisis Levels II and III**

1. The Principal/Supervisor/Designee assumes Incident Command.

2. The Supervisor/Designee calls the SMDT; meets with the Police Coordinator & Dept. of Parks, Recreation & Neighboring Services Community Coordinators.
3. The Supervisor/Designee may originate Tactical Assessment; may call for assistance from Probation, Health, Medical Coordinator, & District Emergency Services.
4. To intervene, assess incident using all resources of the SMDT.
5. Supervisor/CRT Team begins incident tracking.
6. CRT Team identifies critical issues, groups, and individuals.
7. Interviews individuals.
8. Supervisor does further assessment or tactical if incident is not resolved.
9. If appropriate, notify the MST Coordinator.

#### **1.6.5. Response to Crisis Level I**

When reporting a 911 emergency, please specify whether the situation is immediately pending or in progress. Be advised that BPD considers immediately pending as a "Code 3" non-emergency response, and in progress as a "Code 1" emergency response.

#### **Reporting a Level I Emergency**

1. Reporting party calls the Principal/Supervisor/Designee at 510.644.4533 or school (Franklin CDC at 510.644.6339, Hopkins CDC at 510.644.8939, King CDC at 510.644.6358) to report the situation.
2. Principal/Supervisor/Designee notifies staff to take action if appropriate
3. The Principal/Supervisor/Designee and/or involved staff member witnessing the event calls 911.
4. The Principal/Supervisor/Designee contacts the Superintendent's office at 644-6206.
5. Principal/Supervisor/Designee notifies the Crisis Response Team (CRT).
6. The Principal/Supervisor/Designee contacts the Juvenile Justice SMDT (Safety Multi-Disciplinary Team) N/A

7. One call activates the SMDT and arranges to meet at a particular location at the school.
8. The Principal/Supervisor/Designee contacts local ESTA and CSEA representatives.
9. BPD assumes incident command/PIO when arriving on campus.
10. The Principal/Supervisor/Designee meets with police for assessment after police response.
11. The Principal/Supervisor/Designee assesses the emergency situation and whom within the staff to notify.
12. Police determine if emergency is resolved and Principal/Supervisor/Designee determines if other intervention is necessary.

#### Standardized Emergency Radio/PA Codes

1. The standardized emergency codes for Franklin CDC, Hopkins CDC & King CDC described in this safety plan shall be utilized, for example: "Code Red", or "Lock Down".

  - Carrying a concealed weapon: 12020 (CCW)
  - Intruder on campus (trespasser): 602
  - Mentally disturbed person: 5150.

*Example: "There is a 602, 5150 in the main quad."*

3. Supervisor/Designee and/or involved staff member contacts 911. Once the dispatcher answers, tell him/her what happened. If you did not witness the incident, let the dispatcher know that your information was received from a witness by phone, for example. The dispatcher may need to verify your address and phone number.

You will need to ask the eyewitness for the following information:

- type of emergency
- specific location/classroom
- are there any injuries: yes/no
- do you need an ambulance: yes/no
- is the suspect still there? Yes/no
  - If yes, exact location:
  - If no, how did the suspect leave and which way did he/she go:
- If suspect left in a vehicle:
  - make \_\_\_\_\_
  - model \_\_\_\_\_
  - color \_\_\_\_\_
  - year \_\_\_\_\_
  - license Plate \_\_\_\_\_
  - any distinguishing features \_\_\_\_\_

4. Critical Information to Provide 911 Dispatcher

- Identify school, specific location:
- Description of suspect(s):
  - Ethnicity:
  - Name of suspect, if known:
  - Gender: Male – Female
  - Age: Years
  - Height: Feet; Inches
  - Weight: Lbs.
  - Hair color: Brown/Black. /Blond/Red
  - Description of clothing color:
    - jacket/shirt
    - pants
    - shoes
    - hat

Other features:

- What street should the emergency vehicles enter from?
- What is the best entrance gate for them to use:

*The custodian or other designee must be alerted to open the entrance gate in the event of an emergency.*

The Supervisor/Designee activates the Site Safety Plan Utilizing Crisis Response Team (CRT) to Support Police Suppression Activities using standardized emergency radio/P.A. Codes recognized by BUSD. The codes shall be congruent with police codes, for example, “242 in boys’ gym.”

#### **1.6.6. Aftercare**

***Aftercare*** is the period of time following an emergency, crisis, or disastrous event. There is a shift from the SMDT to Multi-Services Team (MST) services for children. The Supervisor or Designee, or staff with community coordinators, health and medical coordinators, and other members of the MST, will provide appropriate referrals for individual students and/or families. Aftercare planning is the transition from intervention activities.

Personal case management/counseling support:

- 48-hour referral to MST
- District psychological services
- Guidance counseling referral
- Support groups
- Other City/County/community referrals (e.g., Berkeley Mental Health)
- The Supervisor/Discipline Team will hold post-event assessment
- Write a common evaluation

Refer to Principal/Leadership Team

In the event of a school-wide crisis, once it is determined that the school grounds are safe, the staff will be directed to one or more locations in the school where Aftercare

services will be available for students in need of emotional support. Instructions will also include safe procedures for the release and referral of students.

### Identifying High Risk Cases

Students who have been directly involved in the crisis or event are to be considered *High Risk Cases*. The teacher or adult in charge should make a list of students in his/her charge and inform the Supervisor or MST Coordinator.

Students who are considered a high risk due to other factors may include:

- Relatives or close friends of the victim
- Students who have suffered recent/previous trauma or loss
- Students with preexisting psychological condition
- Students who lack personal resources

### **1.6.7. Post Traumatic First Aid**

As an outgrowth of almost any disaster, individuals who experienced a crisis are likely to present a variety of psychological reactions. Once the major crisis has subsided and the immediate physical safety needs have been met, the psychological needs of these persons must be addressed.

The following descriptions of students' basic needs, as well as suggestions for meeting them, will help school personnel deal with their reactions to a natural disaster.

1. Students and staff need facts. The Principal, Supervisor, or Designee will provide as much information as is feasible and appropriate, and explain the disaster, what it is, and how and when it occurred. The students will be prepared for aftershocks or other after effects. Students will be reminded that only certain areas may have been affected.
2. Students and staff need the opportunity to share feelings and experiences. This helps diminish anxieties. Adults need to admit to their

own feelings (as much as is appropriate) so that students will have "permission" to share theirs.

3. Students need to be together with adults and family members. They are fearful of their own safety as they are of being separated from their family and not knowing if they are safe or if they will see them again. Let students know that parents will get to them as soon as possible. In the meantime, assure students they will be cared for. Under no circumstances is any student to be left alone.
4. Students need to be engaged in activities. Activities are important to gain control over the situation. If the crisis or disaster requires the students to be at the school site for a long period of time, use classroom and recreational materials to help structure time.

## 1.7. Implementation of Plan

The written plan will be distributed to all departments and will be made available to all staff, students, parents, and the community to review in the school library and the main offices.

The School Safety Plan will be reviewed annually with input from staff, students, parents, the School Safety Team, the Discipline Team, the Administrative and Leadership Team, the community, local law enforcement, and the School Site Council. Setting annual goals and reviewing the previous year's process will be critical components of the safety plan.

The School Site Council shall approve the annual review and revisions of the School Safety Plan.

## 1.8. Structural Assessment Review

Assessment

After a natural disaster where buildings or classrooms may have suffered damage, or potential damage, a structural assessment will be conducted at the site on the basis of most severe need, room by room. This assessment will be conducted to assure the safety of facilities on the campus.

The structural assessment will be conducted by a review team which may consist of any of the following:

- Board Member
- Superintendent
- Coordinators of Maintenance and Transportation
- Director of Planning
- Architect
- Structural Engineer
- Electrical Engineer
- State Inspector
- School Site Administrator
- Head Custodian
- Fire Department, if applicable

The Review Team will convene at the school or district site, which ever is appropriate, and will make recommendations to the Superintendent or his or her designee on priority issues and on how to proceed.

# SECTION 2

## ***DEALING WITH SPECIFIC INCIDENTS***

### 2.1. Intruder, Shooting and Hostage Situations

In case of a school-wide emergency, all staff members are required to remain with their students. Under no circumstances is staff to leave students unattended. If it is determined that students and staff are to depart to a staging area, staff must accompany their students to the prearranged staging area.

EVENT	ACTION
Warning	Actual contact with intruder, gunshots, or other imminent threat of violence: Principal/designee will announce by verbal communication (public address system, bullhorn, telephone, or face-to-face contact):  "LOCKDOWN. THIS IS NOT A DRILL. LOCKDOWN." As much specific information as possible regarding the nature of the incident should be provided.
Campus Lockdown	All staff and students are to immediately implement "LOCKDOWN." If inside, barricade doors, build interior barricades, turn off lights, cover windows, lock the doors if at all possible, and silence cell phones. Staff is to remain with students until "ALL CLEAR" signal is given, released by the Principal/designee or evacuated by police.

Off Campus Staging Area	<p>If it appears to be unsafe to report to any room for a lockdown, staff will immediately ascertain whether it is safer to stay, seek cover or run to staging areas for themselves and their students and other students in the immediate vicinity. Staging areas are predetermined safe areas where students can report in the event of an emergency evacuation due to an intruder, shooting or other hostage situation on campus.</p> <p>ALL CLEAR: Verbal communication (bullhorn, telephone, radios, or face-to-face contact) announcement by Principal or Designee</p>
-------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### Responsibilities of Staff in Buildings Under Siege

1. If outside, ensure safety of staff and students by directing students as appropriate to:
  - seek cover or run (in a zigzag pattern if safer), and/or
  - run to the safest pre-determined "Staging Area"
  - staff will take roll and note missing students, as much as feasible.
2. If inside, doors should be closed and locked if possible. A survivor mentality and confident attitude should be assumed. Door barricades and internal barricades should be immediately erected. Windows should be covered if possible or applicable. Lights should be turned off if feasible. Silence should be maintained, including turning all cell phones to silent (not vibrate).
3. Any critical information should be immediately shared by contacting the Supervisor, Principal, or if neither is available, then through dialing "911" or if using a cell phone (510) 981-5911.
4. Staff will take roll and note missing students. Staff will also take note of students not on their rolls, but who report to them for safety supervision. If there are serious injuries in the room, red cards are to be immediately placed in the window and/or under the door.
5. If in a campus lockdown, evacuate only when BPD directs and guides the evacuation process.

6. As soon as feasible, your Gmail account should be opened as well as the emergency website at [www.berkeley.net/emergency](http://www.berkeley.net/emergency).

#### When in Direct Contact with Intruder

1. Staff should maintain calm and students should sit quietly if the situation is in their presence. When in the presence of an armed intruder, staff should do anything possible for staff and students to survive. If gunfire starts, staff and students should seek cover or begin rapid movement procedures.
2. Do not engage in a conversation or try to persuade the intruder to leave your classroom or school. Remember, you are in an illogical situation so any logical argument may go unheard. The intruder is probably aware of the potential danger that he/she would be facing if he/she left the classroom. The intruder may perceive himself/herself as being sane.
3. If the intruder speaks to you or to your students, then answer him or her. Do not provoke him or her. Students should be told not to whisper to one another, laugh, or to make fun of the intruder. Remember, the intruder is disturbed and probably mentally ill, and more than likely paranoid. Any whispering or laughter may be perceived by the intruder as directed at him or her.
4. Students should be taught to respond on their own when threatened. Incidents can occur which leave no time for signals. If students are outside and unable to find access to a room, they should, depending on the situation, initiate *Action: TAKE COVER* position or run in a zigzag fashion to the staging areas and STAY CALM.
5. If and when possible, call the Supervisor's office or BPD 911 and follow the 911 Police Protocol (*see Section 1.6.5, Response to Crisis Level I*). Give as many details as possible. If using a cell phone, call [\(510\) 981-5911](tel:5109815911).

#### Administrative Responsibilities

Upon notification of an intruder or hostage situation, and after calling 911 for emergency assistance, the Principal/Supervisor or Designee will:

1. Notify the Superintendent, if safe to do so, and keep him/her posted.
2. The Principal and Supervisor will provide the police with information as required. If the need to evacuate the school is determined by police emergency services, the Principal will be in contact with the District Office and in consultation with the Superintendent or Designee, and under the direction of emergency City Officials may initiate the evacuation of the school.
  - If the school is to be evacuated, the site administration will notify staff and students. Staff must remain with students until released by the site administrator. Staff will be notified if the release is for home or a staging area.
  - Ascertain as much information as possible regarding the status of injured victims. Direct the First Aid Team to the designated First Aid Area until emergency personnel and paramedics arrive.
  - Keep unauthorized personnel or media off campus. Refer media to the Public Information Officer, Charles Burrell. The Superintendent or Designee shall be the only authorized official for media contact.
  - The media: City Television Station Channel 28 & 33: 510.981.3473 and City Emergency Radio Station: 1610 AM: 510.848.2288 will inform the public when classes are to resume.
3. The Principal/Supervisor or Designee will:
  - Direct trained personnel to keep a list of students transported to hospitals.
  - If possible, select staff to ride on buses to ensure that students have support.
  - Designate an area on campus where parents may pick up students after school personnel have properly released them
  - Post personnel at school entrances to prevent unauthorized entry if necessary (any classified or certificated staff, Discipline Team member, custodian, administrator, etc.).

- Immediately implement the "After Care" plan, on the same day, and when school resumes, to provide opportunities for counseling support services for students/staff.
- If the situation warrants, the administrative team (or BPD) will conduct a room-by-room contact with each class before giving the signal to resume classes or begin school closure procedures.

### Drive-by Shooting

If a drive-by shooting occurs, the locations at greatest risk are the perimeter of the school, the entrance areas due to accessibility by vehicle, ~~and Physical Education, athletic, or other field areas.~~

If you suspect that shots may be fired from a passing vehicle:

1. In open areas, if shots are sounding, have students and staff initiate *ACTION: LOCKDOWN* and keep as low as possible. Move only when directed by supervising staff.
2. Only if safely possible, look at the vehicle; try to identify:
  - License plate number
  - Type of car; color
  - Occupants
  - Damage to vehicle
  - Direction of travel
  - Weapons
3. Immediately after the vehicle is gone, the Level I Incident process will be followed. In addition:
  - The Principal, Supervisor, or Designee will contact 911.
  - The Principal, Supervisor, or Designee will notify the Superintendent.
  - Determine injuries, if any. Stay with the seriously injured until services arrive.
  - Have students move safely and quickly to the nearest shelter/building.
  - Alert the school site Crisis Response Team (CRT).

- If media arrives, direct them to the District's Public Information Officer. Do not let media roam.
- When police arrive, they will direct the scene and take control of the situation.
- Alert nearby schools of the incident if the potential exists for them to be affected.

☛ Drive-by shootings usually happen very quickly or quite suddenly. Unlike a hostage situation, the perpetrators of drive-by shootings usually leave the scene instantly. Staff members who witness such incidents should, without putting themselves in danger, and get as precise a description of the vehicle as possible.

#### All Clear Signal: Staff Responsibilities

When the "ALL CLEAR" signal is given by the site administrator or Designee, the staff has the following responsibilities:

1. Render first aid if necessary. Notify the Supervisor or Health Office regarding injured student if possible. Supervisor will assess situation and determine if the "First Aid Team" needs to be activated. Place YELLOW CARD in window and inform administration.
2. Report any person whose whereabouts are unknown. Place a RED CARD in window and inform administration.
3. Ensure that teachers account for the status of students by taking roll. DO NOT PERMIT ANY STUDENT TO LEAVE THE CLASSROOM.<sup>7</sup> If all students present, no injured or missing, place a GREEN CARD in window.
4. Ensure that safety precautions remain in effect until further emergency instructions are provided by the administration or emergency personnel such as police or fire department.
5. Instruct emergency personnel to notify staff and students of evacuation through personal contact or phone. This could be a room by room

---

<sup>7</sup> May not be enforceable with adult students

evacuation, using a predetermined code, or a quick evacuation in which a CODE NINE has been called over the loud speaker for a targeted building. That signal alerts staff and students to prepare for a quick evacuation once emergency personnel reach the room.

***Stay calm. Remember...***  
***Students will model their emotional reactions after yours!***

## 2.2 Bomb Threat

When a call is received regarding a possible bomb threat, the person taking the call shall immediately do the following:

1. Refer to the *Report of a Bomb Threat* form in the Appendix.
2. If the bomb threat is called in, use caller I.D. on the black phone for possible identification of the caller.
3. Notify the VP or the first Administrator available and campus security.
4. Call 911 only under the direction of the Administrator.
5. Do not use radios, phones or cordless phones, cell phones, or other electronic devices until given the authorization by the Fire Department or Bomb Squad, if appropriate.

### Initial Notification

1. The VP, Principal, or Designee shall contact all campus supervisors at all levels (Discipline Team, the school psychologist, and pertinent available members of the CRT).
2. State "There is a Code 10 situation." Indicate the area where the bomb is reportedly located.
3. Instruct supervisors to canvass the areas on campus where they are presently located.

4. Announce to appropriate staff that radios/phones may not be used until the VP or designee is cleared by Berkeley Police Department of safe School conditions: any electronic transmission may set off a bomb.
5. Administrators and Advisors will notify all buildings of a bomb threat.

#### Administrative Procedures

1. Searchers are not to touch any mysterious object, but to isolate the area and notify an administrator of the possibility that the object may explode. The administrator will notify the police of the presence of the object. The police will call the bomb unit.
2. Turn off the bells if they are due to ring while the bomb threat is being assessed and until further notice. Turn off base station so that walkies are not inadvertently used. (The ringing of bells or use of the radios may set off the bomb.)
3. Notify staff that no P.A. announcements will be made until further notice. This may also set off the bomb.
4. Consult with the Principal and contact the District Office to notify them of the bomb threat.
5. In a private area, campus security will speak with the person who received bomb threat. If BPD is involved, they will also want to speak to the person who received the threat in private.
6. Should a mysterious object be found, call for an emergency evacuation, following the evacuation routes already established.
7. Assign all available personnel supervision of buildings. No bells will be rung to signal the evacuation. Teachers will be privately and individually notified of the need to evacuate as quickly, calmly, and quietly as possible. The staff should be told the reason for the evacuation. If the object is in the path of an evacuation route, devise an alternate route. The Principal or Designee will remain in contact with the District Office, and in consultation with the Superintendent's Office or Designee, dismiss school as necessary.

8. Evacuation locations should be the same as fire evacuation. Use alternate routes if the bomb is located along the route of the assembly area.
9. If “Dirty Bomb” is suspected, evacuate to locations that are uphill and upwind from bomb location.

## 2.3. Student Unrest

In the event of student unrest where a great number of students are involved in disruptive or aggressive behavior, emergency procedures will be enacted under the direction of the Principal, or VP in the absence of the Principal.

1. If the disturbance involves large groups of students and occurs during break or lunch, the bell will be rung early in order to get students into the safety of the classroom.
2. If the disturbance occurs during class time, the period will be lengthened.
3. Staff will be notified via the public address system to return to class, if at break or lunch, to lock the door when reasonably sure that most students are present, and to keep students away from doors and windows.
4. Teachers in classrooms where there is no public address system will be notified by other communication means that the school is on emergency status.
5. In order to avoid inciting participation in the unrest, there will not be any announcement over the P.A. system that this is an emergency. Staff will know that the school is having problems if the break and lunch periods are ended early and/or if staff is instructed to lock their doors and cover their windows.
6. Staff will be alert to any problems that may be off-shoots of the main unrest and notify the administration via telephone upon arrival to the classroom.
7. If an individual staff has no class at the time of the emergency, he/she is to call the VP or Principal for an assignment. DO NOT CALL THE OPERATOR or

PRINCIPAL'S SECRETARY. These lines must be kept open for internal or administrative calls at all times.

8. Teachers are to take roll and maintain attendance, monitor entry to and exit from the classroom, and to maintain control as best as possible.
9. P.E. teachers are to hold students inside the locker room or gym if that is where the students are located at the time of the unrest, or contain the students as best as possible if too far from the locker room or gym.<sup>8</sup>
10. Staff is to talk with their students about the unrest to alleviate their fears about safety and disruption. Staff is to keep the atmosphere calm and objective while assuring the students that the problem will be contained.
11. Instructions will be given via the P.A. system upon culmination of the emergency. Based on the circumstances, students will be retained in the immediate class, sent to the next class, or dismissed to go home. Staff is to supervise the campus in their immediate areas until their students enter their classes.

#### Administration

1. The Principal, VP, or Designee will assess the situation and determine if additional support is needed (e.g. from the District Office, other schools, community agencies).
2. The VP will determine if the SMDT needs to be activated.
3. The Principal will contact the District Office and advise of campus climate.
4. The Principal or Designee will supervise the calling of parents of injured or disruptive students, to pick up students, and of any disciplinary action.
5. An administrator or Designee will activate the First Aid Team, if necessary.

#### Staff Responsibility

1. Teachers/Paraeducators will perform their duties as classroom teachers and paraeducators and conduct class.

---

<sup>8</sup> n/a for adult students at BAS

## **2.4. Sexual Assault or Sexual Offense**

### **2.4.1. Report of Sexual Assault to or from School**

When self-reported by student, staff, or other:

1. Immediately refer to VP/Designee and campus security. The VP will call 911 if security is not available. Provide as much pertinent information to the 911 dispatcher as possible. If the victim is under age 18, a suspected child abuse report must be filed.
2. VP or Designee will contact parents/guardians<sup>9</sup> of the assault victim (with their permission) to inform them of the assault and necessary police intervention.
3. A referral will be made by the VP or Designee to the site-based clinical counseling MST.
4. This process will be used whether the assault is reported as recent or a previously unreported assault.
5. The VP will notify the Principal, District Office, District School Safety Director and Police Coordinator, of the assault.

#### Notification of Staff and Students

An alert will go out to the staff and students regarding the alleged assault. The alert may be handled in several ways:

- An alert to take precautions and safety tips may be announced over the P.A. system.

---

<sup>9</sup> If underage, otherwise contact “Emergency Contact” on student registration

- An advisory alert will be distributed to all staff, requesting that they alert their students about a possible sexual predator near the school community.
- A school-wide lesson plan discussing preventative and safety tips may be done through common classes such as English or Social Studies or over the P.A. system.

2. VP or Designee will contact parents/guardians of underage students/concurrent minors to inform them of the indecent exposure and of necessary police intervention.
3. A referral will be made by the VP or Designee to the site-based clinical counseling or MST for support for the student.

### Notification of Staff and Students

An alert will go out to the staff and students regarding the alleged assault. The alert may be handled in several ways:

1. An alert to take precautions and safety tips will be announced over the P.A. system.
2. An advisory alert will be distributed to all staff, requesting that they alert their students about individuals indecently exposing themselves near the school community.
3. A school-wide lesson plan discussing preventative and safety tips may be done through common classes such as English or Social Studies.
4. Police bulletins and sketches of the alleged perpetrator will be disseminated to staff, if appropriate.
5. Flyers may be sent home with students.
6. The VP or Designee will contact neighboring BUSD schools to alert them of a possible sexual predator. The Police School Coordinator will contact nearby BUSD schools to alert them of a possible sexual predator.
7. The school will rely on the news media to assist with alerting the community based on information given by BPD.

### **2.4.3. Sexual Harassment Policy**

It is the policy of the Berkeley Unified School District to provide an educational, employment, and business environment free of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment, as defined and otherwise prohibited by state and federal law.

It is both unlawful and a violation of this policy for anyone who is authorized to recommend or take personnel or educational action affecting an employee or student, or who is otherwise authorized to transact business or perform other acts or services on behalf of the Berkeley Unified School District, to engage in sexual harassment as defined under this policy.

The complete sexual harassment policy is available at school sites and at the BUSD Administration Building, 2020 Bonar Street, in both the Human Resources and Educational Services Offices. If questions arise concerning the interpretation of the prohibition against sexual harassment, the methods and procedures to be followed in the investigation of the complaints, and the appropriateness of specific solutions in disposition of complaints, contact:

- If the question involves a student, the site principal or designee, then if necessary, the Associate Superintendent, Educational Services.
- In all other cases, the Assistant Superintendent, Human Resources. If a question relates to a site employee or an individual other than a student connected with the school site, the site principal should be contacted, then if necessary, the Assistant Superintendent, Human Resources.

#### Work Environment

Within the work environment, sexual harassment is unlawful and is prohibited between supervisors and employees, between employees, and between non-employees and employees.

#### Educational Environment

Within the educational environment, sexual harassment is unlawful and is prohibited between supervisors and employees, between employees, and between non-employees and employees.

#### • **PURPOSE OF THE POLICY**

- This policy is intended to supplement, and not replace, any applicable state and federal laws and regulations. Formal complaints under those laws and regulations shall be processed through the procedures established by applicable state and federal agencies.
- The governing board of the Berkeley Unified School District has developed this policy to:
  - Affirm the Board of Education's opposition to sexual harassment in the Berkeley Unified School District;
  - Create a learning and work environment in which all persons who participate in school programs and activities can do so in an atmosphere free from all forms of sexual harassment;
  - Establish explicitly the responsibilities of all Berkeley Unified School District employees and students by defining conduct which constitutes prohibited and inappropriate behaviors;
  - Create a mandate to develop educational programs designed to help Berkeley Unified School District employees and students recognize, understand, prevent, and take corrective action to end sexual harassment;
  - Establish the framework for effective procedures for addressing harassment complaints.

#### • **DEFINITION OF SEXUAL HARASSMENT**

**A. General Definitions**

Sexual harassment occurs when unwelcome sexual advances, requests for sexual favors, and other verbal, visual or physical conduct of a sexual nature:

1. Are made either explicitly or implicitly a term or condition of an individual's educational status or employment;
2. Are used as a basis for educational or employment decisions affecting such individual; or
3. Have the purpose or effect of unreasonably interfering with an individual's education or work performance or creating an intimidating, hostile, or offensive educational or working environment.

**B. Specific Examples**

For the purpose of further clarification, sexual harassment includes, but is not limited to:

- Making unwelcome written, verbal, physical, and/or visual contact with sexual overtones. Written examples include but are not limited to suggestive or obscene letters, notes, or invitations. Verbal examples include but are not limited to derogatory comments, slurs, innuendoes, jokes, or epithets. Physical examples include but are not limited to assault, touching, impeding, or blocking movement. Visual examples include but are not limited to leering, gestures, display of sexually suggestive objects or pictures, cartoons, or posters.
- Continuing to express sexual interest after being informed that the interest is unwelcome. Reciprocal attraction is not considered sexual harassment in the case of employees but is inappropriate between employees and students
- Making reprisals, threats of reprisal, or implied threats of reprisal following a negative response. For example, within the work environment either implying or actually withholding grades earned or deserved; suggesting a poor performance evaluation will be prepared; or suggesting a scholarship or college recommendation will be denied.
- Within the work environment, engaging in implicit or explicit coercive sexual behavior, which is used to control, influence, or affect the career, salary, and/or work environment of another employee. Within the educational environment, engaging in implicit or explicit coercive sexual behavior, which is used to control, influence, or affect the educational opportunities, grades, and/or learning environment of a student.
- Offering favors for employment benefits, such as promotions, favorable performance evaluations, favorable assignments, favorable duties or shirts, recommendations, reclassifications or the like in exchange for sexual favors.

**• RETALIATION PROHIBITED**

The initiation of a complaint of sexual harassment will not reflect on the complainant or witnesses in any way. It will not affect such person's future relationship with the District, his or her employment, compensation, or work assignments, or, in the case of students,

grades, class section or other matters pertaining to his or her status as a student in any District program. It is unlawful and a violation of this policy to engage in such retaliation.

- **CONFIDENTIALITY**

The request of a complainant or witness to not have his/her identity revealed will be honored in accordance with applicable policies, laws, and/or collective bargaining agreements. However, it is understood and shall be made clear to the complainants and witnesses that not revealing the identity of the complainants or witnesses may limit the investigation and the action that may be taken against the harassers or retaliators.

Even when the identities of the persons who make complaints or are witnesses are known, reasonable efforts will be made to maintain their confidentiality. Only those who have need to know, including those taking or investigating the complaint, the alleged target of harassment or retaliation, the alleged harassers or retaliators, and any witnesses will be advised of their identities.

Additionally, reasonable efforts will be made to keep a complaint and the results of the investigation confidential. Persons who may be contacted in the course of investigations of sexual harassment complaints shall be informed that it will be a violation of this policy to disclose the complaint, the identities of the complainant and witnesses, or the nature of the investigation to others. They shall be advised that any retaliation or reprisal against any individual who is an alleged target of harassment or retaliation, who has made a complaint, or who has provided evidence in connection with a complaint is a separate actionable offense.

- **DISCIPLINARY ACTION**

- Employees who act in violation of this policy and/or the law may be subject to discipline up to and including dismissal. Such disciplinary action shall be in accordance with applicable policies, laws, and/or collective bargaining agreements.
- Students who act in violation of this policy and/or the law may be subject to discipline up to suspension or expulsion. Such disciplinary action shall be in accordance with District policy and state law.

- **COMPLAINT PROCEDURES**

- **Filing**

Employees, students, or other individuals who feel aggrieved because of conduct that may constitute sexual harassment are encouraged, but not required, to directly inform the person engaging in such conduct that such conduct is offensive and must stop. It is recognized that power and status disparities between an alleged harasser and a target of harassment may make such a confrontation impossible.

If an aggrieved employee, student, or other individual is unable to communicate directly with the person whose conduct is offensive, or if direct communication has been unavailing or would be inappropriate, the aggrieved employee, student, or other individual may file a complaint in writing with:

- His or her supervisor (in the case of harassment of an employee by an employee);
- His or her site principal or designee (in the case of harassment of a student by a student, a student by an employee, or an employee by a student);
- The site principal or designee associated with the incident (in the case of a site-related incident and harassment by a non-student or non-employee);
- The Manager, Personnel Services (for a non-site related incident and harassment by a non-student or non-employee).

The attached complaint form may be used. If the form is not used, the information requested on the form should be provided.

Before a written complaint is filed, an aggrieved individual may discuss with the person responsible for taking the complaint whether the alleged conduct is sexual harassment and what options, besides filing a written complaint, are available to the aggrieved individual. The person responsible for taking the complaint will assist the aggrieved individual in determining what action should be taken.

While complaints should be in writing, any complaint received, whether anonymous or not or whether in writing or not, shall be accepted and investigated to the extent possible and appropriate.

An aggrieved individual need not be someone who has been the specific target of harassment. It may be anyone who has been a target of retaliation as a result of a harassment complaint or anyone who has observed sexual harassment or retaliation.

If the person responsible for taking the complaint is not of the same gender as the aggrieved individual, the aggrieved individual may request of the person responsible for taking the complaint that a person of the same gender assist in taking the complaint. If the individual responsible for taking the complaint is the one harassing, the aggrieved person may file the complaint with the individual who is next in line in the appeal process.

- **Responsibilities of Employees**

Employees serving in supervisory or managerial positions who receive complaints or observe harassing or retaliating conduct by or of employees, students or others shall inform the individual responsible for taking the complaint as appropriate.

- **Investigation**

Review and Disclosure of Complaint

The individual responsible for taking the complaint shall review the complaint. As soon as reasonably possible after receipt of the complaint, the student, employee, or other person who is accused of sexual harassment shall be informed of the contents of the complaint.

#### Complaints Against Students

Upon completion of the investigation of a complaint filed against a student, the site principal or designee shall determine whether the harassment has occurred and, if so, the appropriate corrective action. Corrective action may include counseling, warning, or the initiation of disciplinary procedures against the student.

#### Complaints Against Employees

Upon completion of the investigation of a complaint filed against an employee, the individual responsible for taking the complaint shall determine whether harassment has occurred and, if so, the appropriate corrective action. Corrective action may include counseling, warning, or the initiation of disciplinary procedures against the employee.

#### Complaints Against Other Individuals

Upon completion of the investigation of a complaint filed against an individual who is neither a student nor an employee, the Manager, Personnel Services, or the site principal or designee shall determine whether harassment has occurred and, if so, the appropriate corrective action. Corrective action may include counseling, warning, or such penalties or sanctions against other individuals or parties as may be available to the District given the nature of the contractual or business relationship that may exist with such parties or individuals. Such individuals include visitors to the District and those who have business relations with the District.

#### • **Appeal and Disciplinary Procedures**

All decisions made under this procedure may be appealed by the aggrieved person to the Superintendent and, thereafter, to the Governing Board.

- If the complaint is against a student, the complainant, before appealing to the Superintendent, should appeal to the District Compliance Officer. In the case where a site designee is responsible for the complaint, the complainant should appeal to the site principal before appealing to the District Compliance Officer.
- If the complaint is against an employee, the complainant, before appealing to the Superintendent, should appeal to the District Compliance Officer. If the employee is a site employee and the principal of the site has not heard the complaint, the complainant should appeal to the site principal before appealing to the District Compliance Officer.

- If the complaint is against an individual who is not a student or employee and the incident occurred on a school site, the complainant should appeal to the District Compliance Officer before appealing to the Superintendent.

Established statutory and District procedures, under which the District has the burden of proof, shall be used in the event the administrative review results in a decision that disciplinary action is necessary.

Since established personnel and disciplinary procedures provide for Board-level review or decision making, the Board of Education will take no action on any complaint until it has been acted upon in accordance with this policy. In this way, employees shall be assured of their due process rights.

- **Time Limits**

A complaint shall be filed as soon as reasonably possible after the conduct in question has arisen. All complaints shall be promptly and thoroughly investigated in a confidential manner. The investigation shall be completed within thirty (30) calendar days. If the complainant has submitted a signed written complaint, a written report summarizing the findings and disposition of the complaint will be provided the complainant within the thirty calendar days.

- **Special Assistance**

It is expected that questions may arise concerning the interpretation of the prohibition against sexual harassment, the methods, and procedures to be followed in the investigation of complaints, and the appropriateness of specific solutions in disposition of complaints. For assistance in these matters, an aggrieved person may contact the Associate Superintendent, Instructional Services, or the Manager, Personnel Services.

## **VIII. IMPLEMENTATION AND DISSEMINATION OF POLICY**

This policy will be disseminated to all personnel and students at the beginning of the school year. All newly hired district employees and new students will receive a copy of this policy in connection with the orientation of newly hired employees or new students. District employees shall understand and agree to abide by this policy.

The policy shall be prominently displayed at each instructional or work location and shall be incorporated into any institutional publication that sets forth the rules, regulations, procedures, and standards of conduct. It shall be included as part of the District's annual notification to parents pursuant to Education Code Section 49080.

The Superintendent or designee shall ensure that every two years supervisory employees receive at least two hours of classroom or other effective interactive training and education regarding sexual harassment. All newly hired or promoted supervisory employees shall receive training within six months of their assumption of the supervisory position.

The District's training and education program for supervisory employees shall include information and practical guidance regarding the federal and state statutory law on the prohibition against and the prevention and correction of sexual harassment and the remedies available to the victims of sexual harassment in employment. The training shall also include practical examples aimed at instructing supervisors in the prevention of harassment, discrimination and retaliation.

In addition the Superintendent or designee shall ensure that all employees receive periodic training regarding the District's sexual harassment policy, particularly the procedures for filing complaints and employees' duty to use the District's complaint procedures.

Education of employees and students about this policy and associated federal and state laws prohibiting sexual harassment shall take place periodically. The objective of this education shall be to foster a better understanding of sexual harassment and of this policy and to develop behaviors and attitudes that mitigate against inappropriate sexual overtures and pressures in school, work, and social settings.

Those responsible for taking complaints of sexual harassment or implementing this policy shall receive training designed to inform them of their duties and responsibilities for handling appropriate all incidents of sexual harassment in the Berkeley Unified School District.

#### Failure to Report Known or Suspected Child Abuse

Failure to report known or reasonable suspicion of child abuse, including sexual abuse, is a misdemeanor. Those who make a mandated report of child abuse are provided with immunity from civil or criminal liability.

#### Mandated Reporter Training

Mandated reporter training should be done annually.

## **2.9 Suicide Attempt on Campus**

If a student or other person demonstrates any suicidal tendencies (verbal or other signs), call in the school site psychologist, social worker, or head counselor. Notify the VP. If the VP is not on site, notify the Principal or other administrator. In the event that the psychologist, head counselor, or social worker is not on campus, the administrator will notify campus security.

Should a student brandish a weapon during the course of discussing or displaying suicidal tendencies, the following action should be taken:

#### Do's and Don'ts Related to Suicidal Threats

Refer to the school psychologist, counselor, or medical staff for direction.

## **2.10 Staff Notification of a Dangerous Student**

### Notifying the Teacher of a Violent or Dangerous Student

Education Code 49079 and our Collective Bargaining Agreement with the Berkeley Federation of Teachers require that we notify classroom teachers/bargaining unit members of students who have engaged in, or are reasonably suspected of engaging in certain suspendable or expellable acts. Those acts are listed in section 48900 of the Education Code and are included in the end of this section

The goal of the plan is to define a system whereby every classroom teacher and substitute will have immediate access to the names of those students currently enrolled in his/her classroom who meet the criteria of Education Code section 48900.

(See Appendix G for BUSD Procedures related to notification of dangerous students.)

## 2.11. Exposure Control for Bloodborne Pathogens

### Definition of Bloodborne Pathogens

***Bloodborne pathogens*** are small organisms that, when introduced to the body via blood and/or bodily fluids, can cause serious disease. Three of the most prevalent are:

1. Hepatitis B Virus (HBV)
2. Human Immunodeficiency Virus (HIV) and Acquired Immunodeficiency Syndrome (AIDS)
3. Hepatitis C Virus

### Methods of Exposure

Occurs when an uninfected person comes into contact with the blood or bodily fluids of an infected person. Blood or bodily fluids enter the uninfected person through a break in their skin or mucous membrane, through sexual activity, use of unsterile needles, and sharing of drug paraphernalia (such as straws).

### Schoolwide and Occupational Exposure Liabilities

Primary contact with blood or other potentially infectious material which may be directly associated in the performance of an employee's duties becomes an occupational exposure.

Some areas on a school site include:

1. Industrial arts classes which may have some occupational exposure.
2. School nurse or health consultant.
3. Campus supervisors including advisors, liaisons, administrators, and others who assist with the supervision of the campus are more likely to deal with physical altercations and therefore be exposed to a student's nose bleed, cuts, or scrapes.

4. Physical education classes.
5. Athletic contests.
6. Other classroom activities such as art, science, labs, etc.

#### In Case of Actual Exposure

1. Report exposure to site administrator immediately.
2. The attendance secretary will provide a required form, *Occupational Bloodborne Pathogens Exposure Report*. Complete this form, then submit to the Risk Management office in Human Resources, with a copy sent to the office of Student Services and the City of Berkeley Health Department.
3. If applicable, the exposed person will be offered an HBV vaccination 24 hours after an exposure has occurred.

#### Precautions

1. Use latex gloves if contact is expected for
  - nosebleeds; all types of cuts and scrapes
  - when handling clothing or other material soiled with blood or other body fluids
2. Glove Guidelines
  - Gloves MUST NOT be reused.
  - Gloves MUST NOT be used on different persons.
  - Gloves must be carefully removed without contact outside of the glove.
  - Gloves must be properly disposed of in a lined receptacle.
3. Guidelines for Washing Hands
  - Wash hands and any other part of skin contacted.
  - Wash thoroughly for 30 seconds with dispensable soap (not a bar of soap) and warm running water.
  - Dry thoroughly with a disposable towel.
  - Antiseptic hand cleansers or towelettes may be used in an emergency until the individual is able to properly wash his or her hands.

#### 4. Cleaning Surfaces

- Promptly clean all contaminated surfaces and equipment with soap and water.
- Then disinfect the surfaces and equipment.
- Properly dispose of contaminated materials as directed in a lined receptacle.
- Promptly notify the head custodian to properly hose or wash down area that came into contact with blood.
- Provisions shall be made for Bio-hazard containers and refuse bags.

5. The person attending to the individual who is bleeding MUST NOT have bleeding, oozing wounds, scrapes, scratches, or skin conditions on him or herself.

6. First Aid Team members should use a mouthpiece or other ventilation device for mouth-to-mouth. Follow all proper procedures outlined in the *Precautions* section above.

7. Glove Locations: Provisions shall be made to ensure an adequate supply of latex gloves is located throughout the school sites, as well as the office of Special Education, Transportation, and the custodial office.

#### Some Myths About Exposure

Day-to-day activities which do not result in becoming exposed to or infected by bloodborne pathogens include:

- talking on a shared phone
- sharing computer equipment
- working in the same room, building, or department with an infected person
- talking to an infected person; or
- just being around an infected person.

#### Other General Precautions

1. Wash hands with liquid soap and running water.

- Before preparing food
- Before and after eating
- Before and after using the restroom
- before and after administering First Aid
- After contact with body fluids:

Blood	Saliva	Urine
Vomit	Feces	Semen
Menstrual flow	Wound drainage	Nasal discharge

# **SECTION 3**

## ***STUDENT DISCIPLINARY ISSUES***

### 3.1. Involuntary Transfers<sup>10</sup> (applies to students age 16 and older)

Every conscientious effort will be made to support the student in improving his/her academic and social behavior at the school site. The student will be referred to support services to the school's MST, clinical counselor, or other school community resources for behavior improvement.

In the unfortunate event that a student's behavior does not improve after various interventions, consideration will be given using a team approach with the Discipline Team and, when appropriate, with the Multi-Services Team, to refer the student to another school site, or recommend an alternative program.

#### Reasons For Involuntary Transfers

Consideration for the involuntary transfer of students (placing students in another comprehensive, continuation, or alternative school site) may be given (but not limited) for the following reasons:

1. Assault on another student (assault on a staff member may result in a recommendation for expulsion, depending on the situation and investigation by school officials).
2. Fighting
3. Major (excessive) vandalism or theft at the school site
4. Theft of a staff's personal belongings
5. Threats or intimidation to staff
6. Threat or intimidation to another student
7. Student causes an unsafe or hostile environment to other students or staff.
8. Sexual harassment towards another student or staff.

Every situation will be individually assessed using the team approach (with the Discipline Team and when appropriate the Multi-Services Team) in order to maintain a safe and healthy school environment.

### **3.2. Alternative Programs<sup>11</sup> (applies to students age 16 and older)**

Students with severe disciplinary issues whose behavior compromises the safety of the campus shall be referred to Berkeley Technology Academy.

In the event that the District's continuation site is at capacity, the District's Student Services Office shall be contacted for assistance to place the student in another alternative school site, possibly a community-based program.

### **3.3. Dress Code**

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

In order to promote student safety, discourage theft, peer rivalry, and gang activity, the principal, staff, and parents/guardians at a school may establish a reasonable dress code. These school dress codes shall be regularly reviewed.

### **3.4. Campus Supervision**

#### Supervision Before School

To ensure as safe and orderly entrance as possible to Berkeley Adult School campus for staff, students, parents and school community when on official business, campus security or a staff campus supervisor will be available to supervise the campus prior to the start of the school day, but not later than 8:00 a.m. until school closure at 9:45 p.m. Administrative staff and or designees will be available for supervision. The Discipline Team will assist the VP in dealing with any student behavior that is in direct

conflict with the District's and school site's educational program. Campus security and BPD will be available to deal with students and non-students alike on any issues or disturbances that directly disrupt the educational goals and objectives of the District and school site.

#### Supervision During Lunch<sup>12</sup>

Campus security and all members of the Discipline Team will be available to supervise and maintain a safe and healthy school environment during lunch and brunch. All team members will be assigned to strategic locations throughout the campus and all will carry walkie-talkies. Campus security or individual Discipline Team members who are assigned to the furthest points of the campus will be issued the use a golf cart. Faculty is expected to supervise their assigned posts during the brunch period. Assigned posts shall be made available through the faculty handbook and shall be updated annually. Violation of any of the school safety and discipline policies will not be tolerated and will result in disciplinary consequences.

#### Supervision During Class Time

Campus security is expected to continuously supervise the campus during class time, when not writing reports, interviewing students, or conducting an investigation. It is expected as much as possible that all staff, as is appropriate and feasible, to support the campus supervision endeavors by accepting tardy students and by preventing unauthorized leaves of the classroom by students.

#### Supervision After School<sup>13</sup>

Campus security and all members of the Discipline Team will be available to supervise a safe transition from class to exiting the school grounds when the final bell rings. All members will be assigned to strategic locations throughout the campus including the center of campus, front of school, and blacktop areas and will all be requested to carry a walkie-talkie. ### 3.5. Overview of Student Disciplinary Procedures

#### 3.5.1. Statement of Rules and Procedures On School Discipline

**Education Code 44807:** *Every teacher in the public schools shall hold pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning.*

#### 3.5.2. Some Basic Policies Staff, Students and Parents Should Know

Students who are made aware of certain policies and laws make better decisions for themselves. Sometimes, even a simple statement made by the student such as "I hate my teachers, I wish he would drop dead", after the student sees his grades may seem fairly innocuous to the student, but may be perceived as threatening to the teacher. Such statements will not be tolerated and may easily result in a suspension, arrest, involuntary transfer, or expulsion from school.

The purpose of this section is to provide information on policies which will be issued to all staff and introduced to all classes at the beginning of each school year. These policies address some of the most commonly committed offenses at the school sites. Additionally, parents will be apprised of these policies via school bulletins and mailers.

Below are a few such policies and laws which will hopefully serve as a reference for helping students to make better decisions.

1. Threats to any staff: Verbal and nonverbal threats may:
  - result in severe disciplinary action be taken as a real threat result in a police citation, arrest, or both
  - may be taken seriously (comments like "I feel like slashing my teacher's tires", "I don't deserve this grade, I wish I could shoot my teacher", etc.), and may be grounds for disciplinary action
  - All attacks, assaults, or physical threats towards school employees by any pupil must be reported to law enforcement (Education Code 44014).
2. Guns: real or replicas: *PROHIBITED*. Real or replicas include but are not limited to
  - Toys, plastic or metal
  - Stun guns pellet guns,
  - BB guns
  - Imitation

Any student(s) found with any toy or real firearm will be subject to one or more of the following disciplinary actions:

- Citation or arrest
  - Suspension
  - Recommendation for Expulsion from the School District
3. Brandishing, intimidation, threats, or exposing a weapon will result in additional legal charges against the responsible individual.
    - Includes brandishing, intimidation, threatening, or exposing of a real, toy, or simulated weapon.
    - Infraction may result in severe disciplinary action as previously described.

4. Weapons of any type are not permitted on campus. The sample list below includes but is not limited to real, simulated, or fake items:

SAMPLE LIST OF WEAPONS-NOT LIMITED TO REAL, SIMULATED OR FAKE ITEMS	
knives	skateboards
blades	baseball bats
laser pointers: possession and/or use of a laser pointer will result in disciplinary action and possible police citation. Any student who directs a laser pointer towards another individual will receive disciplinary action and a possible police citation	brass knuckles
Sticks	chains
Mace	pipes
Weights	Any other instrument that can be, or is used as a weapon is prohibited on campus.

5. Sexual harassment is a violation of education code and District policy. Verbal, non-verbal, and physical actions such as: inappropriate looks at others or inappropriate comments, touching of sexual body parts of another person, and electronic communications of a sexual nature. This behavior will result in severe disciplinary action.
6. Fighting and assaults are against school policy and education code. These offenses will be taken seriously by the District, possibly resulting in severe disciplinary action as referenced above.
7. Campus disturbances are against Education Code and school policy.

Any individual who incites, provokes, or instigates others to fight or causes or contributes to a campus disturbance may be suspended, involuntarily transferred, or all of the above. This also applies to students who go to other campuses and cause a disturbance

8. Drug sales on school campus are grounds for mandatory recommendation for expulsion and arrest. The student is subject to the same disciplinary action as (2) of Section 3.5.2. above. This includes possession of any quantity of drugs, and attempted sales.
9. Intimidating a witness is a violation of the Education Code. It is illegal to harass or intimidate a complaining witness or a witness in a school disciplinary proceeding for the purpose of either preventing that student or staff from being a witness or retaliating against that student for being a witness, or both. Disciplinary action will be severe and may result in any or all of the following actions:
  - Suspension
  - Police Citation
  - Involuntary transfer<sup>14</sup>
  - Recommendation for Expulsion

### **3.5.3. Responding to a Disturbance (415)**

The following process shall be used when responding to a disturbance involving several students (fight or other):

1. Respond as requested by base, VP, or other staff knowledgeable about the disturbance. Two or more team members will be asked to respond, or all available team members will be asked to respond, depending on the severity.
2. Team members will diffuse situation.
  - Assess situation.
  - Identify key individuals involved.

---

<sup>14</sup> n/a at BAS

- Bring key individuals to office and separate (in different offices).
  - Work as a team in central location.
  - Do not release key individuals/participants unescorted.
3. Decide as the Discipline Team who will take the lead. All others provide investigative support, written documentation, parent contacts (in case of concurrent minor(s)), referral, and/or suspension write-ups under the direction of the team member taking the lead.
  4. Interview participants and/or witnesses. Take notes during the interview. Have individuals (suspects, victims, and witnesses) write a statement of what took place.
    - Interview participants individually.
    - Always keep participants separated.
  5. After interviewing participants, meet as a team and decide course of action.
    - Keep the VP abreast of the issue, investigation, and disciplinary action.
    - Contact parents or guardians<sup>15</sup> and document such contact.
    - Work as a team; support each other.
  6. Resolve the issue on the same day of occurrence as much as possible. Address issue if disturbance occurs at the end of the school day.
  7. Keep all information confidential outside the Discipline Team and administration. This includes investigative outcomes, team discussion strategies, and disciplinary measures. Disciplinary outcomes may be discussed only with teachers or parents of individual students.
  8. Students shall not be released during the school day without parent notification<sup>16</sup>.
    - A student may be released at the end of the school day if parent contact was unsuccessful.

---

<sup>15</sup> If student is a minor

<sup>16</sup> n/a for Adult Education

- A parent or guardian shall be requested to pick up their student in order to prevent further disturbances or for the student's own safety.
9. Students shall not be released during the school day without parent notification<sup>17</sup>.
- In the event that there may be tension on the campus between two or more students, these students will be brought into the office for conflict resolution and mediation.
  - Rather than dismissing any observed or perceived tension between two or more persons, members of the discipline team shall bring the individuals into the office (in a private location) for conflict resolution and mediation.
10. In the event that only one participant of a disturbance or fight was detained, the campus security or discipline team will be notified and alerted regarding the other individual.
11. Never release a student who may potentially be involved in a fight or disturbance without interviewing him or her, making parent contact<sup>18</sup>, mediation, conflict resolution, or warning.
- Under no circumstances release a hostile student(s) or victim at the same time without a parent<sup>19</sup>, staff, or security escort.
12. Always consult with the VP, Discipline Team Colleagues, campus security, or other site administrators when in doubt.

#### **3.5.4. Policy on Harassment and Intimidation**

*Harassment* means to deliberately continually or chronically annoy or badger another person. *Intimidation* means to make timid or fearful, to frighten; to compel or deter as if by threats.

---

<sup>17</sup> n/a for Adult Education

<sup>18</sup> If student is a minor

<sup>19</sup> If student is a minor

Harassment and intimidation occur when

- a person is constantly picked on, bullied, harassed, pushed around, threatened, constantly laughed at or mocked,
- an individual is teased over any issue, big or small. The teasing could be for example because of the way someone dresses, looks, combs his or her hair, because they get good grades or get along well with the teacher.

### Consequences for Harassment and Intimidation

Possible consequences for any student who engages in harassment and/or intimidation practices:

- Conflict mediation; call to the parent
- After school detention
- Community service hours
- Suspension
- Removal from the classroom
- Removal from the school
- Possible police citation if threats are involved

BUSD will not condone this type of behavior towards another person on this campus. Students will be held accountable for their behavior at all times.

### **3.5.5. Notification to Students and Parents of Discipline Policies**

#### Education Code 35291

1. Parents<sup>20</sup> and students shall be notified of the District and school site rules pertaining to student discipline at the beginning of the first semester, and at the time of enrollment for students who enroll thereafter.

---

<sup>20</sup> If student is a minor

2. The discipline policy shall be reviewed annually with input from the Discipline Team, site administrators, campus security, staff, students, and parents.

(See Appendix B, *Education Code Violations*.)

### **3.5.6. Crime-Related Support Services in the BUSD Community**

#### Prevention/Intervention Programs

The Board believes that parental involvement plays an important role in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians<sup>21</sup> when behavior problems arise.

Students receiving Special Education services, or those students who are protected under the "504 Plan", will first be referred to their case managers, and if no improvement is seen, then students can be referred to the IEP or RtIs Team, and must involve the case manager or representative from the Special Education Department (for students with IEPs).

#### Response to Intervention (RtI2) Team

The RtI2 Team is comprised of school personnel and support service providers (i.e. mental health providers, mentors, etc.) These support service providers offer confidential support services through the school's RtI2 Team under the coordination of (list name). The RtI2 meets weekly at the school site.

#### Services on Campus

1. Conflict Management and Resolution shall be offered to students
2. Counseling by (agency/type of service)
3. Other (insert):

#### Community Service

Community Service involves assigning a student who has committed an infraction of the school policies, hours of service to the school and community in lieu of

---

<sup>21</sup> If student is a minor

suspension. The community service hours are performed after school during non-class hours. The goal is to keep the student in school so that he/she does not miss out on class instruction.

### School-Wide Review Of School Policies

Students and parents shall be made aware of school policies through an annual mailer or parent/student handbook<sup>22</sup>. New students shall be given a copy of the school policies at the time of enrollment. All classrooms shall have posted a copy of the Student Discipline Policies and Emergency Disaster Plan. Additionally, selected policies shall be written weekly on the student section of the school bulletin.

### Prevention and Intervention Activities Based on Crime Statistics

A review of the crime statistics in the area indicate four basic areas of concern:

1. *Drug and alcohol offense*: This includes students suspected of use or under the influence; also, students suspected of possession.
2. *Property crimes*: This includes theft, graffiti, and general vandalism.
3. *Crimes against a person*: This category includes persons who were victims or suspects of assault or battery, victims or suspects of assault with a deadly weapon, and victims or suspects of a sexual offense.
4. *Other crimes*: This area includes students who are suspected of possession of a weapon or of using destructive or explosive devices.
5. The Conflict Management Program and other school-wide educational programs which educate students on issues of diversity, intimidation and harassment, policies on weapons and vandalism, anger management, and personal counseling through MST serve to address the most frequent issues surrounding the crime reporting and expulsion recommendations.

## **APPENDIX D**

### **Berkeley USD Board Policy 5131.2 Anti-Bullying**

The Governing Board of the Berkeley Unified School District affirms that every student and staff member has the right to a safe and secure school environment, free of humiliation, intimidation, fear, harassment, or any form of bullying behavior. Furthermore, the Board believes that a healthy, positive psychosocial school environment enhances and increases academic achievement and pro-social development (BP 5030.2), and therefore the prevention, [reduction/elimination], and effective disposition of bullying are fundamental to Berkeley's educational goals. The District, students, families, and staff have an obligation to create an environment that celebrates and respects diversity and human dignity and admonishes bullying behavior. To this end, the District has in place policies, procedures, and practices that are designed to reduce and eliminate bullying and harassment as well as address incidents of bullying and harassment when they occur.

The District will not tolerate bullying – as defined in this policy -- or any behavior that infringes on the safety or well-being of students, staff, or any other persons within the District's jurisdiction whether directed at an individual or group.

To address incidents of bullying and the potential culture that supports such behavior, this policy has the following objectives:

- 1) Cultivation of a culture of empathy, kindness, respect, and mutual trust among students and between students and staff
- 2) Creation of a school climate which encourages students to disclose and discuss incidents of bullying, both in their roles as victims, perpetrators and bystanders
- 3) Demonstration of a commitment to address incidents of bullying by outlining the school response to any such behaviors

The District will communicate its objectives, programs, and procedures to eliminate bullying in its annual parent/student handbook.

#### **Definition:**

Bullying means systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. It is further defined as: unwanted purposeful written, verbal, nonverbal, or physical behavior, including but not limited to any threatening, insulting, or dehumanizing gesture, by an adult or student, that has the potential to create an intimidating, hostile, or offensive educational environment or cause long term damage; cause discomfort or humiliation; or unreasonably interfere with the victim's school performance or participation. Bullying is carried out repeatedly; and is often characterized by an imbalance of power.

### **Indicators of Bullying Behavior**

- Bullying behaviors may include, but are not limited to, the following:
  - Verbal: Hurtful name-calling, teasing, gossiping, making threats, making slurs or epithets, making rude noises, or spreading hurtful rumors. This policy excludes constitutionally protected speech (Education Code 48950). Speech that poses a threat or danger to the safety of students, employees or District property, or that materially and substantially disrupts the school environment, is not constitutionally protected.
  - Nonverbal: Posturing, making gang signs, leering, staring, stalking, destroying property, insulting or threatening notes, using graffiti or graphic images, or exhibiting inappropriate and/or threatening gestures or actions.
  - Physical: Hitting, punching, pushing, shoving, poking, kicking, tripping, strangling, hair pulling, fighting, beating, "pantsing", pinching, slapping, biting, spitting, or destroying property.
  - Emotional (Psychological): Rejecting, terrorizing, extorting, defaming, intimidating, humiliating, blackmailing, manipulating friendships, isolating, shunning, ostracizing, using peer pressure, or rating or ranking personal characteristics.
  - Cyberbullying: Bullying committed by means of an electronic act, the transmission of a communication, including but not limited to, a message, text, sound, or image by means of an electronic device, including but limited to, a computer phone, wireless telephone, or other wireless communication device, computer, or pager.
  - Cyberbullying is characterized by deliberately threatening, harassing, intimidating, or in any way, ridiculing an individual or group of individuals; placing an individual in reasonable fear of

harm;; posting sensitive, private information about another person without his/her permission; breaking into another person's account and/or assuming another individual's identity in order to damage that person's reputation or friendships.

- Hazing: ritualistic behavior that subjects persons to intentionally mean-spirited, physically or psychologically abusive, or humiliating tasks as a rite of passage or initiation.

### **Jurisdiction:**

This policy applies to students and staff on school grounds, while traveling to and from school or a school sponsored activity, during the lunch period, whether on or off campus, and during a school-sponsored activity. It also includes acts of bullying that take place at any time when the acts have a nexus to school attendance/activities by posing a threat or danger to the safety of students, District property, or materially and substantially disrupting the school environment.

This policy pertains to cyberbullying that is related to school activity or attendance that occurs at any time, including, but not limited to, while on school grounds, while going to or coming from school, during the lunch period whether on or off campus, during, or while going to or coming from, a school sponsored activity, that is directed specifically toward a pupil or school personnel. If the cyberbullying occurs outside of the scope of the District but the school has knowledge of its occurrence, the school will inform the parents/guardians of the students involved.

### **Bullying and Harassment:**

Bullying, cyberbullying, and intimidation, may, from time to time, be part of a continuum of student misconduct such as sexual harassment, hate-motivated behavior, assault or child abuse, and, as such, the action of the student or the nature of the incident could be considered a violation of other aspects of student conduct policies and state and federal law.

Bullying based on a person's or group's actual or perceived sex, gender, transgender or gender-identity non-conforming, socio-economic status, their race, color, religion, ancestry, national origin, ethnic group identification, physical or mental disability, age, sexual orientation, marital or parental status, which constitutes discriminatory harassment, shall be dealt with in accordance with the Nondiscrimination/Harassment Policy (BP 5145.3) as well as with this policy.

**Reporting:**

Students who are the targets of bullying, staff, or any community member who has witnessed bullying, should report the abuse to the principal, the principal's designee, or a trusted school staff member. Staff members, upon receiving a complaint or witnessing bullying, are required to make a report to the principal or principal's designee. While submission of a Bullying Incident Form is not required, the reporting party is encouraged to use the Form which will be made available from the principal of each school and the District office. Oral reports shall also be considered official reports. Reports may be made anonymously, but formal disciplinary action may not be based solely on an anonymous report. Both oral and anonymous reports should be documented and reported by the receiving administrator.

If a student/or staff member feels that he/she is the target of cyberbullying, the student or staff member is encouraged to save and print any messages or other posts sent to them that they feel constitutes cyberbullying and to notify a teacher, principal or other employee so that the matter may be investigated.

**Investigation:**

Investigation: Upon receiving a report either directly from the target of bullying, a witness of bullying, or from a teacher or staff member, the principal or principal's designee (or Superintendent/designee) must initiate the Investigation Procedures.

The investigation must be prompt and diligent. All interviews of witnesses, the victim, and the accused shall be conducted separately. During an investigation, all individuals involved must to the extent reasonably possible maintain the confidentiality of the proceedings and the names of the complainant and students involved.

**Victim's Rights:**

The victim of bullying has the right to immediate support, including physical and psychological support. During and after the investigation, a school counselor or other appropriate school personnel should follow-up with the victim and provide the appropriate and necessary support.

**Intervention/Discipline:**

The Principal or designee shall decide the appropriate way to deal with bullying behavior if the investigation has proven that the student who engaged in the

bullying behavior has violated this policy. Interventions and consequences must be age-appropriate and equal to the severity of the violation. In dealing with bullying behavior, the designee should regard the bullying behavior and the situation as unique and create an intervention/discipline plan based on the particular characteristics of the situation to ensure that the plan remedies the bullying, decreases chances of retaliation, and helps rehabilitate the student who has engaged in bullying behavior (if appropriate).

Some acts of bullying may be part of a larger pattern of bullying that requires a response either at the classroom, school site, or District levels or by law enforcement officials. Consequences and appropriate remedial actions for a student who commits an act of bullying may range from behavioral interventions and education up to and including suspension/expulsion, or referral to law enforcement (Suspension and Expulsion/Due Process Policy BP 5144.1)

In addition to the grounds specified in Education Code sections 48900, sections 48900.2, 48900.3, and 48900.4 provide additional authority to discipline a pupil in any of grades 4 to 12, inclusive for conduct that amounts to bullying. (Education Code 48900, 48900.2, 48900.3 and 48900.4)

*Education:* To prevent bullying, each school site has the obligation to educate students about what bullying is and why it is unacceptable. When possible, teachers should use existing curriculum and materials to emphasize the negative, hurtful effects of bullying. Each school site should prioritize its existing anti-bullying curriculum and seek to enhance anti-bullying education. Furthermore, each school site should educate students in an age-appropriate manner about appropriate use of electronic devices and social media. The District has the obligation to provide materials and curriculum to each school site that requests support.

### **False Reports and Statements:**

Intentionally false reports, use of the complaint process, or statement to defame a fellow student or staff member or any illegitimate reason, will result in disciplinary consequences.

### **Retaliation:**

Retaliation against a complainant or any individual involved in the investigation of a bullying situation, either by the student who has allegedly engaged in bullying behavior, the friends of the student who allegedly engaged in bullying behavior, or any other individual, is strictly prohibited or is grounds for discipline.

### **Annual Report to the Board:**

Each school site will make an annual report to the Director of Student Services in June detailing bullying incidents at the school. At a fall Board meeting, the Director of Student Services will report to the Board on bullying within the District and make recommendations as to how this policy can be more effectively implemented.
