Service Leadership

60 Years of Service

Since first opening our doors in 1958, Foothill College has provided excellent, affordable education and job training to local students. We also offer classes for life-long learning and professional development, and provide innovative online programs for students to continue their studies when they are not on campus.

Now, as we celebrate our 60th anniversary, we also celebrate one of our proudest achievements yet: a commitment to service leadership.

What is Service Leadership?

Service leadership allows our students to develop and hone their leadership skills through work on and off-campus. #60for60 highlights 60 projects that give our students the opportunity to become leaders and global citizens. These projects increase our students' critical thinking, teamwork skills, and opportunities to transfer to a 4-year school, if that is their goal.

Some examples:

- Students volunteer as archivists and historians with the City of Los Altos
- Football team distributes food and clothing to the homeless in San Jose
- Global Medical and Dental Brigade provides care to rural populations in Central America
- Foothill Repertory Dance Company holds Toys for Tots Drive
- Students volunteer at Second Harvest Food Bank
- Engineering students work to make the campus more environmentally sustainable

Service Leadership

Research & Service Leadership Symposium

May 17, 2018 | 8:30AM-4PM
at Foothill College

Our students will showcase their service learning, civic engagement, and community service projects at our inaugural symposium. See what our students have been working on all year!

Nonprofit Mall

The Nonprofit Mall at our Research & Service Leadership Symposium will host a wide range of local organizations that are engaged in social and environmental justice work. The goal is to give nonprofits a platform to raise awareness about their organization and to inform students about the service leadership work being done in the Bay Area.

What Students Are Saying

“This experience was amazing and very humbling because sometimes we forget the little blessings we have. I would definitely encourage people to go and give back to the community.” – Eman M., Second Harvest Food Bank Volunteer
