Inspection Results

As you know, California *Education Code* Section 1240 requires county office of education personnel to visit selected schools during the first 20 days of instruction. The purpose of the visit was to:

1. Determine if students have “sufficient” standards-aligned instructional materials in four core subject areas (English language arts, mathematics, history/social science and science), including science laboratory equipment in grades 9-12, and, as appropriate, in foreign languages, and health;
2. Determine if there are any facility conditions that “pose an emergency or urgent threat to the health or safety of pupils or staff”.

I am pleased to provide you with results from the recent Williams inspection of your school. Materials insufficiencies and facility deficiencies (if any) are noted on the summary sheet. Facility details are included on the FIT report that is also enclosed.

Quarterly reports will be submitted to your district superintendent for presentation to the district’s Board of Education during the 2018-2019 school year. To reflect corrections of facilities deficiencies and/or materials insufficiencies on an upcoming quarter report, submit your updates to us at williamssettlement@kern.org.

If you have any questions or concerns; please contact Diane Steward, special services facilitator, at (661) 636-4371.
