**RE: PROPOSAL FOR SOIL ENGINEERING SERVICES DURING CONSTRUCTION
NEW GYMNASIUM AND CLASSROOM BUILDINGS PROJECT
BOREL MIDDLE SCHOOL
425 BARNESON AVENUE
SAN MATEO, CALIFORNIA**

Dear Mr. Price:

Introduction

As requested, we are submitting this proposal to provide soil engineering observation and testing services during the planned New Gymnasium and Classroom Buildings project at the Borel Middle School campus in San Mateo, California. Our geotechnical report submitted March 24, 2017, and our supplemental geotechnical engineering recommendations for site retaining walls letter was submitted November 13, 2017.

Based on the project plans prepared by CSDA Design Group, dated August 10, 2018, the project will include the new Gymnasium Building L, and Classroom Buildings J and K. The project will also include the concrete flatwork, asphalt parking lot and underground utilities.

Scope of Services

Specific details of the contractor's schedule to complete the various phases of the work are not known; therefore we propose to provide our services on an hourly time and materials basis during the earthwork, foundation installation, utility trench backfilling and flatwork installation phases of the project.

Based on our experience with similar projects, we estimate the scope of our services will include intermittent to full time on-site observation and field density testing (rough estimate of required man-days in parentheses) as follows:

1. Demolition, grading and engineered fill placement (5.0 MD)

San Mateo – Foster City School District
Attn: Bob Price
November 27, 2018
Page 2

2. Subgrade and baserock compaction for Gymnasium Building pad slab-on-grade (1.5 MD)
3. Subgrade and baserock compaction for Classroom Building pads slab-on-grade (1.5 MD)
4. Observation of spread footing foundation excavations (2.0 MD)
5. Subgrade and baserock compaction for exterior concrete flatwork (2.0 MD)
6. Subgrade and baserock compaction for asphalt pavements (2.0 MD)
7. Utility trench backfill compaction (3.0 MD)
8. Office support and material submittal review and approval, response to RFI's, site meetings and consultation (2.0 MD)
9. Preparation of required DSA progress reports and final close out documents (1.0 MD)

Arrangements

Our field observation services including office supervision, and the necessary office and laboratory work will be provided in accordance with the terms and rates of our Schedule of Fees and Conditions presented on the reverse side of the last page of this proposal.

Usually, the cost of our services on the basis of full-time observation and testing during a normal eight-hour work day would be about \$1,100 per day, \$550 per half-day, and \$150 per site visit. These estimates include field and office supervision and laboratory testing. Consultations and report preparation are billed in addition at the appropriate hourly rate. We project that we will be required on-site for approximately 20 man-days. The estimated cost of our services is \$22,000. Our billings will be submitted monthly or upon completion of those phases of the work involving our services.

All services rendered by us consist of professional opinions and recommendations made in accordance with generally accepted soil and foundation engineering principles and practices. This warranty is in lieu of all other warranties, either expressed or implied.

Under no circumstances is it our intent to directly control the physical activities of the contractor or the contractor's workmen's accomplishment of work on this project. The presence of our field representative at the site is to provide the District with a continuing source of professional advice,

opinions and recommendations based on the field representative's observation of the contractor's work and does not include any superintending, supervision, or direction of the actual work of the contractor or the contractor's workmen.

Any construction review of the contractor's performance conducted by us is not intended to include, and does not include, review of the adequacy of the contractor's safety measures in, on, or near the job site.

We look forward to being of service to the District on this project and ask that you call if you have any questions. As our authorization to provide the above services, please sign and return one copy of this agreement.

Yours very truly,

CLEARY CONSULTANTS, INC.

Chris Ciechanowski
Geotechnical Engineer 2584

CLEARY CONSULTANTS, INC.
SCHEDULE OF FEES AND CONDITIONS

PERSONNEL CHARGES

Administrative Assistant.....	60.00/hr
Drafting/Laboratory.....	65.00/hr
Senior Engineering Technician.....	115.00/hr
Staff Engineer/Staff Engineering Geologist.....	120.00/hr
Project Engineer/Project Engineering Geologist.....	130.00/hr
Associate Engineer/Associate Engineering Geologist.....	145.00/hr
Principal.....	\$180.00/hr*

*Expert witness fees for appearance at court and depositions are \$1800/day and \$900 half day. There is a minimum of one-half day for all court and deposition appearances.

EQUIPMENT/LABORATORY CHARGES

Automobile.....	\$0.55/mile
Mobile Laboratory.....	5.00/hour
Nuclear Moisture/Density Gauge.....	5.00/test
Laboratory Compaction Curve, ASTM D1557.....	225.00/test
DIR Certified Payroll Reporting.....	100.00/report

MISCELLANEOUS CHARGES

Drilling services, printing and reproduction, special and consultant fees, permits, insurance, equipment and vessel rental, travel and subsistence expenses and other similar related costs are billed at cost plus 15 percent. Copies of previously issued reports will be billed at \$50.00 for the first copy and \$25.00 for each additional copy, or at cost of reproduction for larger reports.

STANDARD OF CARE

Cleary Consultants, Inc. (CCI) under this Agreement will strive to conduct services in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other warranty, expressed or implied, is made.

Client recognizes that subsurface conditions may vary from those encountered at the locations where our borings, surveys, or explorations are made and that our data, interpretations and recommendations are based solely on the information available to us. We will be responsible for those data, interpretations, and recommendations but shall not be responsible for the interpretation by others of the information developed.

RIGHT OF ENTRY

The Client shall provide for CCI's right of entry and all our necessary equipment, in order to complete the work. While CCI shall take all reasonable precautions to minimize any damage to the property, it is understood by Client that in the normal course of work some damage may occur, the correction of which is not part of this Agreement.

GENERAL LIABILITY INSURANCE

CCI represents and warrants that it is protected by worker's compensation insurance and that we have such coverage under public liability and property damage insurance policies which we deem to be adequate. Certificates for all such policies of insurance shall be provided to Client upon request in writing. Within the limits and conditions of such insurance, we agree to indemnify and save Client harmless from and against any loss, damage, or liability arising from any negligent acts by CCI and its staff. We shall not be responsible for any loss, damage or liability beyond the amounts, limits, and conditions of such insurance. We shall not be responsible for any loss, damage, or liability arising from any negligent acts or willful misconduct of Client, its agents, staff, and other consultants employed by it. Certificates of our general liability insurance shall be provided upon request.

UTILITIES

In the prosecution of our work, CCI will take all reasonable precautions to avoid damage or injury to subterranean structures or utilities. The owner agrees to waive any claim against CCI and to defend, indemnify and hold CCI harmless from any claim or liability for injury or loss allegedly arising from CCI's damaging underground utilities or other man-made objects that were not called to CCI's attention or which were not properly located on plans furnished to CCI.

LIMITATION OF LIABILITY

To the fullest extent permitted by law, and not withstanding any other provision of this agreement, the total liability, in the aggregate, of CCI and its officers, directors, partners, employees, agents and subconsultants, and any of them, to the Client and anyone claiming by, through or under the Client, for any and all claims, losses, costs or damages of any nature whatsoever arising out of, resulting from or in any way related to this project or the Agreement from any cause or causes, including but not limited to the negligence, professional errors or omissions, strict liability, breach of contract or warranty, express or implied, of CCI or its officers, directors, employees, agents or subconsultants, or any of them, shall not exceed the total compensation received by CCI under this Agreement, or the total amount of \$25,000, whichever is greater.

DISPUTES

The parties to this Agreement covenant and agree that all claims, disputes and other matters in question between the parties to this Agreement, arising out of or relating to this Agreement or the breach thereof, shall be submitted to non-binding mediation prior to initiation of any lawsuit or other litigation, unless the parties mutually agree otherwise. The cost of said Mediation shall be split equally between the parties.

DISCOVERY OF UNANTICIPATED HAZARDOUS MATERIALS

Hazardous materials or certain types of hazardous materials may exist at a site where there is no reason to believe they could or should be present. CCI and Client agree that the discovery of unanticipated hazardous materials constitutes a changed condition requiring a renegotiation of the scope of the work or termination of services.

OWNERSHIP OF DOCUMENTS

All reports, boring logs, field data, field notes, laboratory test data, calculations, estimates, and other documents prepared by CCI as instruments of service, shall remain our property. Client agrees that all reports and other work furnished to the client or his agents, which is not paid for, will be returned upon demand and will not be used by the Client for any purpose whatever.

THIRD PARTY BENEFICIARIES

Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the Client or CCI. CCI's services under this Agreement are being performed solely for the Client's benefit, and no other entity shall have any claim against CCI because of this Agreement or the performance or nonperformance of services hereunder. The Client agrees to include a provision in all contracts with contractors and other entities involved in this project to carry out the intent of this paragraph.

ASSIGNMENT

Neither party to this Agreement shall transfer, sublet or assign any rights under or interest in this Agreement (including but not limited to monies that are due or monies that may be due) without the prior written consent of the other party.

INVOICES

Invoices for our services will be submitted, at our option, on a monthly basis or when the work is completed. Invoices will be due immediately, but will not be delinquent within 10 days from which the invoice is dated. If payment is not so made, a service charge will be due on the amount of the invoices at the maximum rate permissible by law from the date of the invoice until the same is paid. In the event legal action is required to enforce the payment terms of this agreement, CCI shall be entitled to collect from the client any judgement or settlement sums due plus reasonable attorney's fees, court costs and other expenses incurred by CCI for such collection action.

SAMPLES

All samples of soil and rock will be disposed of from the laboratory 30 days after issuance of the report unless the Client advises otherwise. Upon request, we will deliver the samples to the Client, charges collect, or will store them for an agreed storage charge.
