

Whereas, the San Mateo-Foster City School District (SMFCSD) represents a diverse community with 20 distinct schools and approximately 12,500 students, and the SMFCSD Board of Trustees is responsible for the following:

- Setting the direction for the community's schools
- Establishing an effective and efficient structure for the district
- Providing support through our behavior and actions
- Ensuring accountability to the public
- Acting as community leaders

Whereas, the SMFCSD Board of Trustees is focused on student achievement and student success for all, and has committed to:

- Focusing on student achievement and meeting the needs of all students.
- Ensuring that all students receive an excellent education.
- Building a unified district-wide team that will effectively raise the achievement level of all of our students.
- Ensuring all financial decisions directly tie to enhanced student success.
- Focusing on educational equity by making opportunities more accessible to all students and focusing on family engagement.

Whereas, to achieve these goals, all students in the district, including students of every race, ethnicity, socioeconomic status, gender, gender identity, sexual orientation, culture, religion, family and home structure, and ability, should have access to a high-quality, equitable education;

Whereas, it is incumbent on the Board of Trustees to ensure that all schools support all students to achieve academic success;

Whereas, the window to change the trajectory of student achievement is short and must entail a sense of urgency;

Whereas, the Board of Trustees currently has no consistent practice to evaluate the performance of students across schools through an equity lens;

Whereas, in order to achieve a culture of equity in the district, set student-first, data-driven policies, and make decisions focused on school improvement, the Board of Trustees must speak with a unified voice and through a guiding set of priorities;

Now, therefore, be it:

Resolved, That the Board of Trustees believes an Equity Agenda outlining clear priorities for the district will establish a holistic and objective framework to guide the allocation of resources, evaluate district and school performance, promote transparent communication, and foster equitable student achievement goals;

Resolved, That the Board of Trustees will adopt a definition and vision of equity that objectively sets the same standard of achievement for every student;

Resolved, That these Equity Priorities shall be a tool from which the Board—through the establishment of an Equity Task Force—can create a comprehensive plan and full Equity Agenda that are used to measure and respond to student-achievement data.

Equity Priorities:

PRIORITY 1: Set and Communicate an Equity Agenda and Measurable Targets

1a: The Equity Agenda shall establish a vision of equity for student achievement and development in the District that is inclusive of students of all races, ethnicities, socioeconomic statuses, genders, gender identities, sexual orientation, cultures, religions, family and home structures, and abilities.

1b: The Equity Agenda will establish ambitious and measurable targets of achievement at the student group, school, and district level.

1c: The Equity Agenda will establish a communication plan that actively publishes transparent and comprehensive data on equity and student achievement.

PRIORITY 2: Monitor Equitable Implementation of Standards and Assessments

2a: The Equity Agenda will create a system to monitor the stated Priority 1 goals via site level data on a quarterly basis.

2b: The Equity Agenda will create a tool to be used to evaluate instructional practices consistently and fairly at all school sites.

2c: The Equity Agenda will create a rubric to understand Board and District policy impacts on equity. The rubric score shall be considered when adopting any new policy.

PRIORITY 3: Allocate Resources to Achieve Equity

3a: The Equity Agenda will include provisions for the budgeting process in response to Priority 1 goals.

3c: The Equity Agenda will establish ambitious, but achievable, response targets to Priority 2 data.

3d: The Equity Agenda will provide guidance on the distribution of resources, including human capital, school funding, and other resources, to specifically address equity shortfalls in the district.

Resolved further, That the Board of Trustees will complete the following actions in support of the Equity Agenda:
