CONSULTING PROPOSAL

February 11, 2019

Ms. Cheryl Mollan,
Manager of Facilities and Planning
Paso Robles Joint Unified School District

RE: Measure M projects

Project Site: Paso Robles School District

Ms. Cheryl Mollan,

Thank you for your interest in my services.

I understand you are interested in my services as your approved DSA inspector/consultant for the Measure M projects which include new construction and site improvements, as per various DSA approved project documents.

As part of my observations I will perform all duties assigned me as required by Title 24, Part 1, Chapter 4 of the California Administration Code and applicable Education codes, as outlined in DSA publication IR A-8.

I propose an accommodation of \$75.00 per hour for services rendered in office and on site as required by the Administration code. A 1-hour travel time each day toward the 4-hour minimum per visit charge. Billing to be charged at 4, 6 and 8 hours as the visit crosses 15 minutes into the next 2 hours billing segment. Off-site office time may have a 2 hour minimum billing for some administrative activities.

As I do not have employees, I will not be providing Insurances or bonding. My vehicle is insured as per the California requirements and will be parked in the visitors parking area.

I will require an office for administrative duties, document collection and review. Equipped with a desk & chair, WiFi access, heat/cooling, electric, lights and a table adequate to roll out the project plans and specifications.

Thank you again for your interest,

Carl Adams, Consultant
DSA, Project Inspector # 2854
